CIRCLEVILLE, OHIO, TUESDAY, FEBRUARY 14, 1928.

Three Cents.

CIRCLING the CIRCLE

—There are approximately 750,000 sheep worth \$8,000,000 on Nebraska farms.

—Seen on an automobile at the Circleville Motors service station today: "Hurry Up, Big Boy! Hell Ain't Half Full Yet."

—Maybe one of the reasons you don't see women knitting these days is because wool catches fire from the tiniest spark.

—Only one child out of every three in London obtains any education other than that given in the elementary schools.

—An inventor in France claims to have developed an airplane which will rise straight up and is operated by a compressed air motor.

—Skimmed milk, left over from butter, may be made into buttons, beads, poker chips, billiard balls, cigaret holders or any one of a hundred other articles.

—Buses in use in the United States at the beginning of 1928 totaled 85,636 as against 79,806, a year. There were only 40,000 buses in use five years ago.

—The world's supply of gold is worth approximately \$20,000,000,000, of which \$1,000,000,000 is unaccounted for, while \$6,000,000,000 are used in the arts and industries and \$13,000,000,000 for monetary purposes.

—An offer of \$5,000,000 has been made to a twenty-year-old student at Nuremberg Technical High School in Germany by an American firm for a machine which he has invented for automatically counting bills and coins. The young genius is said to have succeeded also in constructing a practical ellipsograph, thereby solving a problem which has baffled scientists and technicians for a long time.

—A "purveyor" of illicit liquor, well known in these parts, is said to be quite crafty in the matter of transportation. He secures various types and styles of trucks, changing frequently and in this manner helping himself to cover up his tracks. He is said to have used the truck of a well known chain grocery company on one occasion and a candy truck at another time, but booze under any environment is booze, just the same.

—The anti-aircraft searchlights used by the United States Army are the most powerful known to science. They have a strength of 800,000 candlepower, equal at its source to noonday sunlight. At night the beam is visible for a distance of thirty-five miles, and the lights are able to pick up enemy bombing planes and illuminate them for gunfire at a distance of four to five miles. A newspaper can be read at night in the beam at a distance of ten miles from the light.

—In the belief that whales are growing scarcer all the time and that more ought to be known about their breeding habits, playgrounds and lives in general, whale hunters in Norway, with a specially designed crossbow, shoot them as they pass, the small darts bearing metal labels. These tags are numbered and a record of each one shot into a whale, with all the data possible is kept. Whenever a whaler captures one of the tagged mammals he is supposed to return the tag to the Norwegian Fishery Headquarters.

HICKMAN SENTENCED TO DIE ON GALLOWS

Defense Starts Constructing Alibi For James Flint

TRIAL MOVES SLOWLY; END NOT IN SIGHT

Attorneys For Accused Man Stress Time of His Activities on Fatal Day.

Defense counsel for James Flint alias Walter Brown, colored, on trial in the Pickaway county common pleas court on a charge of first degree murder in connection with the fatal shooting of John Henry Hill on Nov. 14, 1927, lost no time in presenting its alibi for the defendant when the prosecution rested its case Monday afternoon.

The trial is moving very slowly as each witness is examined and cross-examined in detail. At noon Tuesday the opinion was expressed that the trial will not be concluded this week as the defense does not expect to conclude the presentation of its testimony and evidence until Friday.

Cross-examination of the last witness called by the state was concluded early Monday afternoon when Mrs. Ada Morgan was given permission to refresh her recollection of the date she saw Flint have a revolver in her home. This date was placed by her as being Nov. 6, instead of Nov. 13, as she first stated.

Visits Restaurant

The first witness called by the defense was Mrs. May Turner, colored, who said she served a meal in her restaurant to Flint about 5:30 o'clock the evening of the slaying. She said he left the restaurant about 5:40 o'clock. Mrs. Turner testified that Flint was wearing a light cap and sheepskin coat, but that she did not see him take the coat to his room in rear of the restaurant. She said, however, that she found the coat in his room the next week and took it to him at the county jail.

At 5:42 o'clock the evening of the killing, Flint came to her house, but he was not wearing a sheepskin coat as that time, according to the testimony of Mrs. Charles Byrd, the next defense witness. She said that as far as she knew he stayed there all evening, as he was there when she left home at 7:30 o'clock to visit an aunt and was still there when she returned at 9 o'clock. Flint remained at the Byrd home during her absence with her sister, Miss Lavina Whittington and her sister's four year old daughter, Mrs. Byrd said. She also testified that Flint was in bed when Ed Lowe came to the house and reported the killing.

Not Wearing Coat

Charles Whittington, a brother of Mrs. Byrd, said Flint arrived at the Byrd house about 5:45 o'clock and further corroborated the story of his sister. He said that Flint (Concluded on Page Five)

COURT PROTECTS PRIVATE LIQUOR

SAN FRANCISCO, Feb. 14—(INS)—The sanctity of the private liquor stock is upheld in a decision on file today in the records of the United States circuit court of appeals here.

Holding that a man's possessions cannot be seized unless they are being employed in unlawful pursuits and that dry agents have not the right to confiscate property without search warrants, the federal court handed down an opinion ordering a lower court to return a stock of liquor to its owner, reversing a lower court decision in a suit for recovery of the liquor.

MORE MARINES SENT

MANAGUA, Feb. 14—(INS)—Despite the recent report that General Augustino Sandino's main rebel force had been defeated by United States Marines and native constabulary, reinforcements of marines arrived today in the Matagalpa district for further operations in northern Nicaragua.

Hope Abandoned For Recovery of Lord Asquith; Members of Family at Side

LONDON, Feb. 14—(INS)—The Earl of Oxford and Asquith's condition remained unchanged early today, according to a bulletin issued by his physicians.

Lord Asquith is seriously ill at his country estate, the Wharf, in Sutton Courtney. His condition was so grave that it was feared he would not live through the night.

Great Britain's former premier is suffering from an acute attack of pharyngitis. He was unconscious throughout most of the night.

Lord Asquith has taken virtually no nourishment since yesterday. After an all-night vigil, Princess Bibesco, Anthony Asquith, Lady Oxford, and other members of the family were still at the sinking lord's bedside.

After a visit to Lord Asquith at 9 a. m. today, his physicians announced that the patient's condition was hopeless and that nothing further could be done.

LORD ASQUITH

Health Is Improved In Schools Here, Report Of Nurse Reveals

Total of 10,222 Cases Receive Attention of Miss Charlotte Phelps' Office, annual Statement Says—Thanks Given Organizations For Co-operation.

Health conditions in the public schools of Circleville are much improved, according to the annual report of Miss Charlotte Phelps, public health nurse, made public Tuesday.

The largest number of undernourished children were found at the Corwin building, where there were 60. Milk was provided for 32 of them, the report says.

Schick tests and followup treatments were given to about 200

children during the months of February and March, 1927.

There have been several cases of scarlet fever, very few of diphtheria and a scarcity of mumps and chicken pox, Miss Phelps asserts.

8 Sent to Hospitals

Eight patients have been transferred to hospitals and four crippled children to clinics. Two of the children are receiving treatment at hospitals and the other two in schools. One of the most satisfactory cases of the past year is that of Edward Taffe, who is now able to work and care for himself. Thanks to Judge Adkins and the Rotary club for their interest in these cases was expressed by Miss Phelps in her report.

A pre-school age clinic was not held last summer, but Miss Phelps hopes to have on this year as well as a dental clinic.

There have been more calls for clothing this winter than usual, Miss Phelps says, expressing her thanks to the Bible classes and (Concluded on Page Five)

WAR CHEST OF DEMOCRATS IS BEFORE SENATE

Committee Desires to Know If Harry Sinclair Gave Party Missing Bonds.

WASHINGTON, Feb. 14—(INS)—The Senate's search for traces of the Continental Trading Company's mysterious \$3,080,000 Liberty Bond "Slush Fund" was turned today toward the Democratic National committee's "War Chest" for the 1920 campaign.

The Senate public lands committee will subpoena Wilbur Marsh, former treasurer of the Democratic committee, and other officials, it was learned, to determine whether Harry F. Sinclair gave the Democrats any of his share of the Continental bonds. The committee already has learned that a \$75,000 gift by Sinclair to the Republican National committee in 1928, included Continental Bonds.

Sinclair himself told of making contributions to the Democratic "war chest," while testifying at the old teapot dome inquiry in 1923. He told then of giving the Democrats a contribution but could not recall the amount.

"What is the theory of making contributions to both parties?" he was asked.

"I have friends in both parties," Sinclair replied, "and while I am a Republican or am supposed to be, though sometimes I am a Democrat. I was urged by the Democratic treasurer to make a contribution."

ENGINEERS SEE MATERIAL TESTS

Ray Z. Myers, Fred Brown and County Surveyor Harry G. Griner are attending laboratory tests at the O. S. U. Tests are being made of paving brick, stone and gravel at a meeting of the district engineers.

PARADE IN AIR TO BE STAGED BY LINDBERGH

Ambassador of Good Will, Safe at St. Louis, Will Fly For School Children.

ST. LOUIS, Mo., Feb. 14—(INS)—Col. Charles A. Lindbergh, the idol of American youth, was to stage a one-man aerial parade today for the edification of 40,000 school children.

This gesture, incidentally, was to be the modest young aviator's official greeting to the "home folks of St. Louis" following his dramatic non-stop flight from Havana, Cuba, and the completion of one of the most famous aerial tours in history.

Lindbergh swooped down from a heavy sky here last evening just as dusk was settling over Lambert field. Flares had been lighted to compensate for the waning daylight. He had been in the air approximately sixteen hours.

Mishaps Avoided

Thus, in a blaze of glory, the famous ambassador of American goodwill, completed, with the clean-cut precision of his New York to Paris flight, a tour of 15 nations and dependencies in Central and South America.

Since leaving Washington, Dec. 21, on his epochal non-stop flight to Mexico City, Lindbergh has flown approximately 9,000 miles, more than a third of the distance around the world. And all of this without a single mishap. The entire trip was made in his famous Trans-Atlantic plane, "The Spirit of St. Louis."

Owing to inclement weather, less than 1,000 persons were on hand to welcome Lindbergh at Lambert field. It was just a year ago that Lindy "checked out" of the mail service here in order to prepare for his New York to Paris flight. Many of his old buddies were on hand to greet him.

Welcome By Children

After the usual round of backslapping and handshaking, Lindbergh went directly to the home of Harry French Knight, the man who backed his Trans-Atlantic hop. Lindbergh spent the night there in quiet seclusion.

The city was to be given an opportunity to add its plaudits to those of the rest of the world late today. The flyer will take off from Lambert field at 2:15 p. m., and will fly over St. Louis. Then, following the river's course, he will fly low, while the school children of the city, with small American flags, wave a welcome from the levee.

The space between Valentine and Pine streets, on the river front, has been reserved for the children and a cordon of police will protect them from encroachments of adults. This was the expressed wish of Lindbergh, it was said, the flyer apparently realizing aviation's future depends on those who are now children.

Without Incident

Arrangements have been made with the St. Louis Public Service company to furnish street car transportation for 40,000 children. Lindbergh said heavy weather prevailed most of the way and that visibility was "very low." He flew straight from Key West, he said, and then followed the west coast of Florida to Cedar Key where he took a direct compass course to St. Louis.

MRS. JONES DIES AT COUNTRY HOME

Mrs. Emaline Tacy Jones, wife of Ed Jones, died at 12:45 p. m. Monday at her home below Williamsport in Deercreek township. She was born in Pickaway township on Jan. 3, 1900, the daughter of Elias and Doris Westberry Teets.

Funeral services will be conducted at 2 p. m. Wednesday at the M. E. church in Williamsport. Rev. Mr. Denney officiating. Interment will be in the Williamsport cemetery in charge of C. E. Hill.

MRS. BURGOON DIES IN WESTERVILLE

Mrs. Harriet Burgoon, widow of Samuel Burgoon, died at her home, 43 Summit street, Westerville, Feb. 11, 1928, at 6:30 p. m. She was the daughter of James and Maria Burgoon, and was born Dec. 29, 1857.

The body was removed to the home of her son, Peter Burgoon, 6th avenue, Lancaster, on Monday. The funeral and burial services in charge of H. E. Defenbaugh will occur on Wednesday, at 1:00 o'clock at Pine Grove cemetery.

Sentenced to Die on Gallows

WILLIAM EDWARD HICKMAN

LIFE TERM IN PRISON ADDED FOR KIDNAPING

Child Slayer Unmoved As He Hears Doom Pronounced—New Trial Denied.

LOS ANGELES, Feb. 14 (INS)—William Edward Hickman was sentenced today to pay with his life on the gallows for the kidnapping and murder of Marion Parker. Friday, April 27, 1928, was set as the date of execution.

"You shall suffer the penalty of death," Judge Trubucco told Hickman in announcing he had found him guilty of murder in the first degree.

Judge Trubucco sentenced Hickman to life imprisonment at San Quentin penitentiary for his conviction on the kidnapping charge, the first count in the indictment.

When Judge Trubucco called the case, defense counsel asked permission to substitute the word "illegally" wherever the word "legally" appeared in the motion for a new trial. The request was granted.

Motion Denied.

Chief Counsel Welsh interposed a motion for an arrest of judgment, which was denied. Following the denial of a new trial, Walsh entered an objection to the judge's jurisdiction to pass judgment. The objection was denied.

Judge Trubucco then called upon District Attorney Keyes to present state's evidence to aid in determining the degree of punishment.

Hickman, still wearing his natty blue suit and with his curly black hair thickly greased, sat unmoved during the legal skirmishes to save him from the gibbet.

Hickman Unmoved.

Hickman stretched to the full height of his 5 feet 4 inches when ordered to stand before the bar.

Ne never as much as flicked an eyelash as he heard his fatal judgment. "And may the Lord have mercy on your soul," said Judge Trubucco.

A death watch has been posted over the doomed youth.

Today's proceedings lasted 30 minutes. He smiled as he stood between his lawyers as they posed for a newspaper photograph.

INDUSTRIAL FUTURE OF CITY TO BE TOPIC

Three talks by Circleville business men will feature the regular dinner meeting of the Circleville Chamber of Commerce at the Masonic temple at 6 o'clock Tuesday night. The program, which has been arranged by Frank Barnhill will be devoted to a discussion of the topic, "Industrial Prospects of Circleville."

SEARCH CONTINUES FOR GIRL'S BODY

NEW PHILADELPHIA, O., Feb. 14—(INS)—Search for the body of Miss Viola May, 23, continued in the Tuscarawas river today with a reward of \$300 awaiting the finder.

William Herron, 41, her brother-in-law and alleged slayer is still held in the county jail though no charges have been filed against him.

February Month Of Opportunity For Subscription Campaigners

Many Candidates Entered and More Will Be Enrolled Within Few Days in County's Greatest Drive For Prizes—Send in Nominations Without Delay.

The Herald's and Union Herald's great prize campaign is now the theme of conversation in hundreds of homes throughout Pickaway county and every hour brings inquiries from interested readers of the Herald and Union Herald in this and adjoining counties who are either entering the campaign or have some friend whom they would like to see win a valuable prize. Several nominations have been received and numerous candidates have started out after subscriptions, both new and old, in order to get in on the votes offered.

Many are working for new as well as the old to save the triple votes given until Friday, Feb. 24. Remember that you will receive three times the regular scale of votes for every subscription turned in until Feb. 24. If you can not bring them in on that day, fill out your report blank and send it in with your remittance and due credit it will be given.

February is a great month of opportunity for this month the Herald and Union Herald starts the big campaign and someone will get started who will win a valuable

automobile, readers of the Herald and Union Herald can confer no greater favor upon some deserving friend than by clipping out the nomination blank and bringing it to the Herald office. Do it early, for the procedure is to allow the greatest number of votes at the beginning of the campaign and not at the close; this guards against unfairness creeping in and the quicker you get your candidate started, the better chance he or she will stand of winning.

The Herald and Union Herald does not intend to let anyone be the loser in this campaign and for that particular reason will pay all non-prize-winners a commission of ten per cent on all they turn in. This makes a "sure thing" proposition and one that no one can afford to let pass.

Never before has a newspaper in this section of the state made so generous or so meritorious an offer to willing workers, and which, you will agree, is vastly different from anything ever offered before. This particular feature of the campaign has met with the expected popular approval, and many favorable comments have been heard on every side.

If you are no. already enrolled as a candidate in this campaign or if you have not nominated a friend in the campaign, you have neglected the most important duty to yourself or your friend. Everyone should be interested in this campaign and should take some active part in it. Let us hear from you at once. Either come to the office and enter your own name or send or (Concluded on Page Five)

ISSUE FOR \$500,000 ASKED BY TRACTION

Permission to issue \$500,000 in notes for a three-year period was sought Monday by the Scioto Valley Railway and Power Co., in an application filed with the utilities commission. The money obtained is to be used to reimburse the company for money spent during the past five years from income for extension and improvement of lines, the application stated.

RANKS CONFERRED

The Esquire rank was conferred on Sheriff Frank Davis and C. E. Finney at the regular meeting of Philos lodge, K. of P., Monday night. These two men received the Page rank at last week's meeting.

SPORTS LEAGUE TO MEET THURSDAY

The second meeting of the recently organized Pickaway Farmers and Sportsmen Protective association will be held Thursday night at 7:30 o'clock at the Elks club. All members and citizens interested in the organization are urged to attend. The by-laws will be adopted at this meeting.

HICKMAN SENTENCED TO DIE ON GALLOWS

Defense Starts Constructing Alibi For James Flint

TRIAL MOVES SLOWLY; END NOT IN SIGHT

Attorneys For Accused Man
Stress Time of His Activities
on Fatal Day.

Defense counsel for James Flint alias Walter Brown, colored, on trial in the Pickaway county common pleas court on a charge of first degree murder in connection with the fatal shooting of John Henry Hill on Nov. 14, 1927, lost no time in presenting its alibi for the defendant when the prosecution rested its case Monday afternoon.

The trial is moving very slowly as each witness is examined and cross-examined in detail. At noon Tuesday the opinion was expressed that the trial will not be concluded this week as the defense does not expect to conclude the presentation of its testimony and evidence until Friday.

Cross-examination of the last witness called by the state was concluded early Monday afternoon when Mrs. Ada Morgan was given permission to refresh her recollection of the date she saw Flint have a revolver in her home. This date was placed by her as being Nov. 6, instead of Nov. 13, as she first stated.

Visits Restaurant
The first witness called by the defense was Mrs. May Turner, colored, who said she served a meal in her restaurant to Flint about 5:30 o'clock the evening of the slaying. She said he left the restaurant about 5:40 o'clock. Mrs. Turner testified that Flint was wearing a light cap and sheepskin coat, but that she did not see him take the coat to his room in rear of the restaurant. She said, however, that she found the coat in his room the next week and took it to him at the county jail.

At 5:42 o'clock the evening of the killing, Flint came to her house, but he was not wearing a sheepskin coat at that time, according to the testimony of Mrs. Charles Byrd, the next defense witness. She said that as far as she knew he stayed there all evening, as he was there when she left home at 7:30 o'clock to visit an aunt and was still there when she returned at 9 o'clock. Flint remained at the Byrd home during her absence with her sister, Miss Lavina Whittington and her sister's four year old daughter, Mrs. Byrd said. She also testified that Flint was in bed when Ed Lowe came to the house and reported the killing.

Not Wearing Coat
Charles Whittington, a brother of Mrs. Byrd, said Flint arrived at the Byrd house about 5:45 o'clock and further corroborated the story of his sister. He said that Flint (Concluded on Page Five)

COURT PROTECTS PRIVATE LIQUOR

SAN FRANCISCO, Feb. 14—(INS)—The sanctity of the private liquor stock is upheld in a decision on file today in the records of the United States circuit court of appeals here.

Holding that a man's possessions cannot be seized unless they are being employed in unlawful pursuits and that dry agents have not the right to confiscate property without search warrants, the federal court handed down an opinion ordering a lower court to return a stock of liquor to its owner, reversing a lower court decision in a suit for recovery of the liquor.

MORE MARINES SENT

MANAGUA, Feb. 14—(INS)—Despite the recent report that General Augustino Sandoz's main rebel force had been defeated by United States Marines and native constabulary reinforcements of marines arrived today in the Matagalpa district for further operations in northern Nicaragua.

Hope Abandoned For Recovery of Lord Asquith; Members of Family at Side

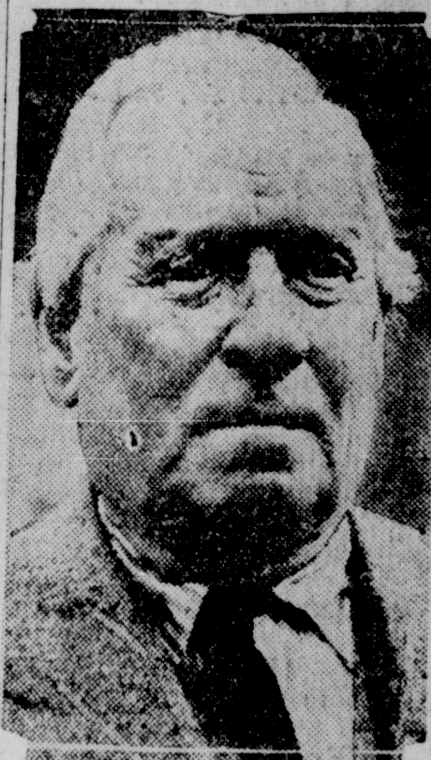

LONDON, Feb. 14—(INS)—The Earl of Oxford and Asquith's condition remained unchanged early today, according to a bulletin issued by his physicians.

Lord Asquith is seriously ill at his country estate, the Wharf, in Sutton Courtney. His condition was so grave that it was feared he would not live through the night.

Great Britain's former premier is suffering from an acute attack of pharyngitis. He was unconscious throughout most of the night.

Lord Asquith has taken virtually no nourishment since yesterday. After an all-night vigil, Princess Bibesco, Anthony Asquith, Lady Oxford, and other members of the family were still at the sinking lord's bedside.

After a visit to Lord Asquith at 9 a. m. today, his physicians announced that the patient's condition was hopeless and that nothing further could be done.

WAR CHEST OF DEMOCRATS IS BEFORE SENATE

Committee Desires to Know If
Harry Sinclair Gave Party
Missing Bonds.

WASHINGTON, Feb. 14—(INS)—The Senate's search for traces of the Continental Trading Company's mysterious \$3,080,000 Liberty Bond "Slush Fund" was turned today toward the Democratic National committee's "War Chest" for the 1920 campaign.

The Senate public lands committee will subpoena Wilbur Marsh, former treasurer of the Democratic committee, and other officials, it was learned, to determine whether Harry F. Sinclair gave the Democrats any of his share of the Continental bonds. The committee already has learned that a \$75,000 gift by Sinclair to the Republican National committee in 1928, included Continental Bonds.

Sinclair himself told of making contributions to the Democratic "war chest," while testifying at the old teapot dome inquiry in 1923. He told then of giving the Democrats a contribution but could not recall the amount.

"What is the theory of making contributions to both parties?" he was asked.

"I have friends in both parties," Sinclair replied, "and while I am a Republican or am supposed to be, though sometimes I am a Democrat. I was urged by the Democratic treasurer to make a contribution."

ENGINEERS SEE MATERIAL TESTS

Ray Z. Myers, Fred Brown and County Surveyor Harry G. Griner are attending laboratory tests at the O. S. U. Tests are being made of paving brick, stone and gravel at a meeting of the district engineers.

ANOTHER VENIRE CALLED IN TRIAL

LISBON, O., Feb. 14—(INS)—A new venire of 20 names today had been ordered by President Judge William F. Lones to augment the remaining sixteen names on the first panel of 68 drawn as prospective jurors in the second trial of S. A. Lengel, former police chief, for the murder of Don R. Mellett.

A tentative jury to 12 was seated as court opened this morning, with 52 of the original 68 veniremen examined, and both state and defense having exhausted half of their peremptory challenges. The state used two of its four challenges to remove two tentative jurors, while eight others were excused by the defense. The state was left with two challenges and the defense with two blocks of four each.

MRS. BURGOON DIES IN WESTERVILLE

Mrs. Harriet Burgoon, widow of Samuel Burgoon, died at her home, 43 Summit street, Westerville, Feb. 11, 1928, at 6:30 p. m. She was the daughter of James and Maria Burgoon, and was born Dec. 29, 1857.

The body was removed to the home of her son, Peter Burgoon, 6th avenue, Lancaster, on Monday. The funeral and burial services in charge of H. E. Deffenbaugh will occur on Wednesday, at 1:00 o'clock at Pine Grove cemetery.

Mishaps Avoided

Thus, in a blaze of glory, the famous ambassador of American goodwill, completed, with the clean-cut precision of his New York to Paris flight, a tour of 15 nations and dependencies in Central and South America.

Since leaving Washington, Dec. 20, on his epochal non-stop flight to Mexico City, Lindbergh has flown approximately 9,000 miles, more than a third of the distance around the world. And all of this without a single mishap. The entire trip was made in his famous Trans-Atlantic plane, "The Spirit of St. Louis."

Owing to inclement weather, less than 1,000 persons were on hand to welcome Lindbergh at Lambert field. It was just a year ago that Lindy "checked out" of the mail service here in order to prepare for his New York to Paris flight. Many of his old buddies were on hand to greet him.

Welcome By Children

After the usual round of backslapping and handshaking, Lindbergh went directly to the home of Harry French Knight, the man who backed his Trans-Atlantic hop. Lindbergh spent the night there in quiet seclusion.

The city was to be given an opportunity to add its plaudits to those of the rest of the world late today. The flyer will take off from Lambert field at 2:15 p. m., and will fly over St. Louis. Then, following the river's course, he will fly low, while the school children of the city, with small American flags, wave a welcome from the levee.

The space between Valentine and Pine streets, on the river front, has been reserved for the children and a cordon of police will protect them from encroachments of adults. This was the expressed wish of Lindbergh, it was said, the flyer apparently realizing aviation's future depends on those who are now children.

Without Incident

Arrangements have been made with the St. Louis Public Service company to furnish street car transportation for 40,000 children.

Lindbergh said heavy weather prevailed most of the way and that visibility was "very low." He flew straight from Key West, he said, and then followed the west coast of Florida to Cedar Key where he took a direct compass course to St. Louis.

MRS. JONES DIES AT COUNTRY HOME

Mrs. Emaline Tacy Jones, wife of Ed Jones, died at 12:45 p. m. Monday at her home below Williamsport in Deer Creek township. She was born in Pickaway township on Jan. 3, 1860, the daughter of Elias and Doris Westberry Teets.

Funeral services will be conducted at 2 p. m., Wednesday at the M. E. church in Williamsport. Rev. Mr. Denny officiating. Interment will be in the Williamsport cemetery in charge of C. E. Hill.

Sentenced to Die on Gallows

WILLIAM EDWARD HICKMAN

February Month Of Opportunity For Subscription Campaigners

Many Candidates Entered and More Will Be Enrolled Within
Few Days in County's Greatest Drive For Prizes—
Send in Nominations Without Delay.

The Herald's and Union Herald's great prize campaign is now the theme of conversation in hundreds of homes throughout Pickaway county and every hour brings inquiries from interested readers of the Herald and Union Herald in this and adjoining counties who are either entering the campaign or have some friend whom they would like to see win a valuable prize. Several nominations have been received and numerous candidates have started out after subscriptions, both new and old, in order to get in on the votes offered.

Many are working for new as well as the old to save the triple votes given until Friday, Feb. 24. Remember that you will receive three times the regular scale of votes for every subscription turned in until Feb. 24. If you can not bring them in on that day, fill out your report blank and send it in with your remittance and due credit will be given.

February is a great month of opportunity for this month the Herald and Union Herald starts the big campaign and someone will get started who will win a valuable

ISSUE FOR \$500,000 ASKED BY TRACTION

Permission to issue \$500,000 in notes for a three-year period was sought Monday by the Scioto Valley Railway and Power Co., in an application filed with the utilities commission. The money obtained is to be used to reimburse the company for money spent during the past five years from income for extension and improvement of lines, the application stated.

RANKS CONFERRED

The Esquire rank was conferred on Sheriff Frank Davis and C. E. Finney at the regular meeting of Philos lodge, K. of P., Monday night. These two men received the Page rank at last week's meeting.

automobile, readers of the Herald and Union Herald can confer no greater favor upon some deserving friend than by clipping out the nomination blank and bringing it to the Herald office. Do it early, for the procedure is to allow the greatest number of votes at the beginning of the campaign and not at the close; this guards against unfairness creeping in and the quicker you get your candidate started, the better chance he or she will stand of winning.

The Herald and Union Herald does not intend to let anyone be the loser in this campaign and for that particular reason will pay all non-prize-winners a commission of ten per cent on all they turn in. This makes a "sure thing" proposition and one that no one can afford to let pass.

Never before has a newspaper in this section of the state made so generous or so meritorious an offer to willing workers and which, you will agree, is vastly different from anything ever offered before. This particular feature of the campaign has met with the expected popular approval, and many favorable comments have been heard on every side.

If you are no already enrolled as a candidate in this campaign or if you have not nominated a friend in the campaign, you have neglected the most important duty to yourself or your friend. Everyone should be interested in this campaign and should take some active part in it. Let us hear from you at once. Either come to the office and enter your own name or send or (Concluded on Page Five)

SPORTS LEAGUE TO MEET THURSDAY

The second meeting of the recently organized Pickaway Farmers and Sportsmen Protective association will be held Thursday night at 7:30 o'clock at the Elks club. All members and citizens interested in the organization are urged to attend. The by-laws will be adopted at this meeting.

LIFE TERM IN PRISON ADDED FOR KIDNAPING

Child Slayer Unmoved As He
Hears Doom Pronounced—
—New Trial Denied.

LOS ANGELES, Feb. 14 (INS)—William Edward Hickman was sentenced today to pay with his life on the gallows for the kidnapping and murder of Marion Parker. Friday, April 27, 1928, was set as the date of execution.

"You shall suffer the penalty of death," Judge Trubucco told Hickman in announcing he had found him guilty of murder in the first degree.

Judge Trubucco sentenced Hickman to life imprisonment at San Quentin penitentiary for his conviction on the kidnapping charge, the first count in the indictment.

When Judge Trubucco called the case, defense counsel asked permission to substitute the word "illegally" wherever the word "legally" appeared in the motion for a new trial. The request was granted.

Motion Denied.

Chief Counsel Welsh interposed a motion for an arrest of judgment, which was denied. Following the denial of a new trial, Walsh entered an objection to the judge's jurisdiction to pass judgment. The objection was denied.

Judge Trubucco then called upon District Attorney Keyes to present state's evidence to aid in determining the degree of punishment.

Hickman, still wearing his natty blue suit and with his curly black hair thickly greased, sat unmoved during the legal skirmishes to save him from the gibbet.

Hickman Unmoved.

Hickman stretched to the full height of his 5 feet 4 inches when ordered to stand before the bar.

Ne never as much as flicked an eyelash as he heard his fatal judgment. "And may the Lord have mercy on your soul," said Judge Trubucco.

A death watch has been posted over the doomed youth.

Today's proceedings lasted 30 minutes. He smiled as he stood between his lawyers as they posed for a newspaper photograph.

INDUSTRIAL FUTURE OF CITY TO BE TOPIC

Three talks by Circleville business men will feature the regular dinner meeting of the Circleville Chamber of Commerce at the Masonic temple at 6 o'clock Tuesday night. The program, which has been arranged by Frank Barnhill will be devoted to a discussion of the topic, "Industrial Prospects of Circleville."

SEARCH CONTINUES FOR GIRL'S BODY

NEW PHILADELPHIA, O., Feb. 14—(INS)—Search for the body of Miss Vola May, 23, continued in the Tuscarawas river today with a reward of \$300 awaiting the finder.

William Herron, 41, her brother-in-law and alleged slayer is still held in the county jail though no charges have been filed against him.

FAILURES OF BANKS FEWER IN PAST YEAR

Financial System Shows Greatest Stability in 1927 Since World War.

WASHINGTON, Feb. 14—(INS)—The American banking system showed probably the greatest stability in 1927 of any year since the war.

Federal Reserve Board statistics today showed that 662 banks failed during the year, a decline of 294 from 1926. Virtually one-third of the failures occurred in the first three months. In 1926 most of the suspensions were found in the last half of the year.

Deposits of suspended banks amounted to \$231,007,000, a decrease of \$41,481,000 from the year before.

Great Improvement

Within the Federal Reserve System there were 124 failures, as compared to 160 in 1926. In the non-member state group 538 banks closed their doors, 258 less than in the preceding year.

"There is a great improvement in the banks the country over," said Comptroller of the Currency J. W. McIntosh. "There has been a tremendous increase in the resources of national banks. The

WHITE GIRL WEDS COLORED BOY

First photo of Beatrice Fuller of Rockville, Conn., 19, and white, and a descendant of the Pilgrims, who became the bride of Clarence Kellam, colored World War veteran (right).

tendency to leave the system for state banks has ceased. In most cases where a national and state bank merge they come in under a national rather than a state charter."

Credit McFadden Law

This situation was attributed to passage of the McFadden law which placed national institutions on a more nearly equal basis with state banks where branch banking is permitted by state law.

Commercial failures numbered 23,146, an increase of 1,373 from the year before, according to the board's report. Liabilities of closed firms amounted to \$520,105,000, greater by \$100,000,000 than in 1926. A total of 16,982 trading firms, 5,682 manufacturing establishments and 1,382 brokerage firms went to the wall in 1927.

Persia Will Enforce New Conscription Law In Spite of Priests

TEHERAN, Feb. 14—(INS)—The new conscription law will be enforced by all means, it is stated here, despite the opposition of the "Mullas" or Priests who have invited the leading Persian clergymen to a conference at Kum, a famous shrine, to voice their protests.

Cabinet ministers have been negotiating with the clergy, and "mullas" have been closeted with the Government officials, but so far there is no end of the deadlock.

INFANT BURIED

Funeral and burial services for the infant son of Chester and Mille Starr Morris were held Sunday, Feb. 12, at the Brethren cemetery at Gibsonville, O. H. E. Defenbaugh was the funeral director in charge.

After 50 Years of Service

De Laval Points the Way to Still Greater Dairy Profits

THE De Laval Company is celebrating its 50 years of unparalleled service by offering to the public the finest line of cream separators ever made. They are known as the "Golden Series" and we believe you will agree after seeing them that they are the most beautiful, convenient, and easiest running separators you have ever seen.

But the best of it is that these Anniversary Series De Laval will soon pay for themselves. They have the wonderful "floating bowl"—the cleanest skimming bowl ever made.

In order to show exactly how much money is being lost by poor separators, De Laval Dealers in 17 states during the past year held hundreds of tests, in which the skim-milk from some separator chosen at random in each community was run through a new De Laval and separated again.

In all these tests De Laval separators never failed to recover butter-fat from such skim-milk. The butter-fat recovered in this way was immediately weighed and tested at the local creamery or cream station, and varied in value from a few cents to over a dollar.

The average results from all the tests showed that the separators from which De Laval skimmed the skim-milk were losing butter-fat at the rate of \$78.00 a year.

We shall be glad to demonstrate a "Golden Series" De Laval for you.

A word from your publisher

---about advertising

The products you see consistently advertised in this paper are worthy of your confidence.

It takes two things to make a consistent advertiser. One is a strong conviction that he has a product that will hold its place in public favor despite competition. The other is actual proof of that . . . the increasing popularity of his product.

If his product will not stand the test of comparison he would simply be throwing the advertising investment away. If the buying public rejects his product after it has been offered in advertising he has thrown his advertising investment away.

That's why the manufacturer who advertises his merchandise consistently is very sure of his quality. . . and why you may be sure of it, too.

Read the advertising here in your newspaper . . . it will guide you to the buying of worthy merchandise

PITTSBURGH, Feb. 14—Cattle — Supply 25; market steady; choice \$14.00-\$14.50; prime \$13.50-\$14.00; good \$13.50-\$14.00; tidy butchers \$12.25-\$13.00; fair \$11.50-\$12.25; common \$9.00-\$10.25; common to good fat bulls \$8.50-\$9.75; common to good fat cows \$8.00-\$8.50; heifers \$10.00-\$11.00; fresh \$15.25.

KNIGHTS OF PYTHIAS
Philos Lodge No. 64
Regular meeting, every Monday, 7:30 p. m.
Visiting Brothers always welcome.
S. L. WARNER, K. of R. C.
J. G. Ward JR., C. C.

MASONIC MEETINGS
PICKAWAY LODGE
Stated communications the first and third Wednesday evening of each month at 7 o'clock.
W. B. Cady, W. M.
M. B. Trout, Secretary.

CIRCLEVILLE CHAPTER
Stated convocations on the first Monday evening of each month at 7:00 o'clock.
Visitors Welcome
R. G. Colville, H. P.
M. B. Trout, Secretary.

TYRIAN COUNCIL
Stated assemblies on the second Thursday evening of each month at 7:00 o'clock.
C. DWIGHT RECTOR, Third Illustrious Master.
R. G. Colville, Recorder.

SCIOTO COMMANDERY
Stated convocations on the last Thursday evening of each month at 7:00.
ORRIN W. DREIBACH, Commander.
GEORGE E. ROTH, Recorder.

25,000 ARE KILLED BY AUTOMOBILES
NEW YORK, Feb. 14—(INS)—Dr. Louis I. Dublin, statistician of the Metropolitan Life Insurance Company, estimates that more than 25,000 persons were killed by automobiles last year and 1,000,000 injured.
Nearly 40 per cent of those killed were children under fifteen years.
"Without a single break the death rate for automobile fatalities has come up since 1911," says Dr. Dublin.

LIVESTOCK MARKET
TOLEDO, Feb. 14—(INS)—Livestock — Hogs—Receipts 350; market 15 to 25c higher; heavies \$7.75-\$8.15; mediums \$8.40-\$8.65; heavy Yorkers \$8.60-\$8.85; light Yorkers and pigs \$7.00-\$7.50; mixed \$8.40-\$8.60; roughs \$6.50-\$7.00.
Cattle—Market steady; Lambs—Market strong; Calves—Market strong; choice \$16.00-\$17.00.

GRAIN MARKET
CHICAGO, Feb. 14—(INS)—Grains opened irregular today. Wheat was 1-8 to 1-4c lower. Corn 5-8 to 7-8c higher, and oats unchanged to 1-8c higher.
Chicago grain opened:
Wheat — March 130 1-2 to 3-4; May 130 1-4 to 1-2; July 128 1-8 to 1-4.
Corn — March 93 5-8 to 7-8; May 96 3-4; July 98 1-4 to 1-4.
Oats — March 55 to 1-4 May 55 5-8 to 3-4 July 53 1-2.

FIRE SWEEPS PLANT
GREENFIELD, O., Feb. 14—(U P)—Damage estimated at \$75,000 was caused by fire which swept a section of the Gray and Elliot furniture manufacturing plant here. Fire fighting equipment from Washington C. H., helped fight the blaze.

HERE FROM LOGAN
Dr. and Mrs. C. O. Allen and Miss Minnie Moore of Logan, were Sunday guests of Dr. and Mrs. H. C. Allen.

ORDERED TO TESTIFY
INDIANAPOLIS, Feb. 14—An unwilling witness, D. C. Stephenson, fallen grand dragon of the Indiana Ku Klux Klan, was virtually ordered by special Judge Charles M. McCabe to testify today in the trial of Gov. Ed. Jackson in Marion criminal court on charges of conspiracy to bribe former Governor Warren T. McCray.

YOUTH FINED \$600
LANCASTER, O., Feb. 14—Because he is alleged to have sold beer to boys, Joe Dupler, of near Hooker, aged 20, was fined \$600 in probate court. It was the youth's second conviction on charges of illegal possession and selling.

INFANT BURIED
Funeral and burial services for the infant son of Chester and Mille Starr Morris were held Sunday, Feb. 12, at the Brethren cemetery at Gibsonville, O. H. E. Defenbaugh was the funeral director in charge.

After 50 Years of Service

De Laval Points the Way to Still Greater Dairy Profits
THE De Laval Company is celebrating its 50 years of unparalleled service by offering to the public the finest line of cream separators ever made. They are known as the "Golden Series" and we believe you will agree after seeing them that they are the most beautiful, convenient, and easiest running separators you have ever seen.

But the best of it is that these Anniversary Series De Laval will soon pay for themselves. They have the wonderful "floating bowl"—the cleanest skimming bowl ever made.
In order to show exactly how much money is being lost by poor separators, De Laval Dealers in 17 states during the past year held hundreds of tests, in which the skim-milk from some separator chosen at random in each community was run through a new De Laval and separated again.
In all these tests De Laval Separators never failed to recover butter-fat from such skim-milk. The butter-fat recovered in this way was immediately weighed and tested at the local creamery or cream station, and varied in value from a few cents to over a dollar.
The average results from all the tests showed that the separators from which De Laval skimmed the skim-milk were losing butter-fat at the rate of \$78.00 a year.
We shall be glad to demonstrate a "Golden Series" De Laval for you.

Court News

APPOINTED GUARDIAN
J. E. Ray was appointed guardian of George Ray by Judge Joseph W. Adkins in probate court, Monday.

HELD TO GRAND JURY
Delmar Weaver and Charles Maw, charged with breaking and entering, pleaded not guilty and waived examination, when they appeared before Mayor B. T. Hedges, Monday evening. Both prisoners were bound over to the grand jury. Their bond was fixed at \$200 each, which they furnished and were released.

Persia Will Enforce New Conscription Law In Spite of Priests

TEHERAN, Feb. 14—(INS)—The new conscription law will be enforced by all means, it is stated here, despite the opposition of the "Mullas" or Priests who have invited the leading Persian clergymen to a conference at Kum, a famous shrine, to voice their protests.
Cabinet ministers have been negotiating with the clergy, and "mullas" have been closeted with the Government officials, but so far there is no end of the deadlock.

A word from your publisher

---about advertising

The products you see consistently advertised in this paper are worthy of your confidence.

It takes two things to make a consistent advertiser. One is a strong conviction that he has a product that will hold its place in public favor despite competition. The other is actual proof of that . . . the increasing popularity of his product.

If his product will not stand the test of comparison he would simply be throwing the advertising investment away. If the buying public rejects his product after it has been offered in advertising he has thrown his advertising investment away.

That's why the manufacturer who advertises his merchandise consistently is very sure of his quality. . . and why you may be sure of it, too.

Read the advertising here in your newspaper . . . it will guide you to the buying of worthy merchandise

"Hoot, Mon, Luckies dinna hurt my throat or wind," says Sir Harry Lauder, celebrated star

"It takes a Scotchman to truly appreciate that wonderful toasted flavor that comes in Lucky Strikes. I've smoked Luckies for years and all this time I've been active in my work which demands a clear voice for singing and good wind for dancing. And so I say to Sandy McGregor, 'It's always a bra bricht moonlicht nicht with Luckies—Hoot, Mon, they dinna hurt my wind or throat.'"

Harry Lauder

"The Cream of the Tobacco Crop"
for Lucky Strikes,

says tobacco loose-leaf warehouseman
"I buy Tobacco—I sell Tobacco—I Fox-hunt for my occasional pleasure. In my business, I have noticed that in this Southland where tobacco grows, The American Tobacco Company buys 'The Cream of the Crop' for their LUCKY STRIKE Cigarettes. I am glad to testify as to their quality; their growth is no surprise to me, because I know what goes into their manufacture."

Leisure a Blessing If Women Only Knew How to Use It

UNEMPLOYED TIME BRINGS DISCONTENT

Women Who Attempt to Fill Their Lives with Bridge, Dances and Teas Rarely Are as Happy as the Workers.

By DR. LOUIS E. BISCH

IN this age of hustle and bustle there is growing up a gradual but the same time strong and sensible sentiment in favor of more leisure.

All of us need leisure—men and women, young and old. We should have our play time like children. We must learn how to relax. We must learn that leisure makes us more efficient in the end, that it is not a waste of time, that it prepares us for better work afterwards.

However, there is leisure and leisure! And, unfortunately, it would seem that the women folk who have the best opportunities for leisure, often waste it most recklessly and foolishly. From eight to nine million women are employed in gainful occupations in the United States. The number of men employed is about thirty-three million.

Between 1910 and 1920 the increase of women workers was only about half a million. In other words, not more than one-quarter of the female population of America seems to be employed outside the home.

Millions of women, of course, are employed inside the home. And such employment is anything but easy.

Housework, child-rearing, home building is anything but a simple job. It is as strenuous as any office or factory employment if it be carried out conscientiously.

But work inside the home does yield one big advantage over the regulated schedule of work outside. The advantage is that the woman is more or less her own boss and can, with thought and planning, allow herself a certain amount of leisure during the day.

But do such women who can plan for leisure or who, because of wealth are not compelled to work inside the home, do they make the best use of their opportunities?

We are inclined to believe that they do not. One constantly sees women frittering away their time, wasting it, with practically no worthwhile return.

Often the chief time killers of women are bridge, teas, dances, gossip, self-admiration before the mirror, dressing and shopping. There are women, indeed, who do nothing more important than that day in and day out throughout their entire lives. It is astonishing, for instance, how many women never read a newspaper.

Only a comparatively small percentage of women read books. Few are interested in vital questions of the day. Many know how to sew, embroider, and do millinery, but they prefer to loiter around the house wondering what they might do to amuse themselves.

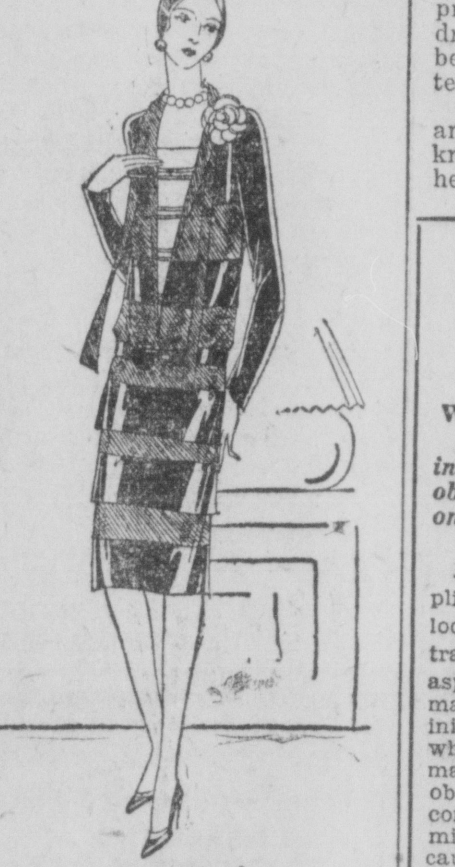

Is it any wonder, then, that so many women are dissatisfied and discontent? Should we really marvel that the women with the most leisure are really the worst off? If leisure is thus dissipated to unproductive ends it acts invariably like a boomerang and the greater the amount on hand the more devastating the results.

What women need is more common sense mixed with that play time. Leisure can be made constructive and stimulating the same as work. It should be considered a blessing and should be conserved. The woman who wastes her precious leisure is, in effect, a pitiable object.

Today's Fashion

By Vera Winston

Tasteful Afternoon Dress of Black Satin.

IN excellent taste is this modish street dress of black satin-crepe, the dull and shiny sides of the material used interchangeably in alternating rows. By no means should this dress be worn by a person of short stature; the vertical lines would be ruinous to any attempt at being suitably and becomingly habited. A stand-up collar with flowing revers and a pink Georgette vest and flower complete the costume.

Feminine Foibles

FELICE: "I am so glad veils are back again!"

RITA: "So am I. And the nice thing about these cunning little nose veils is that one may wear them in the evening."

Ice-men Must Have "It"—Association Rules

By WINIFRED BLACK

WHAT, you haven't heard about the new plan concerning ice-men? I'll tell it to you.

The association of ice industries had a convention the other day and the members talked over the ice situation, so much a pound and so many pounds to the ton and so much time for delivery—but, the principal thing they talked about was the ice-man.

And what do you think the association decided?

I'll tell you that, too—see how good-natured I am today. The association decided that the ice-man this year will be chosen with an eye for good looks and charming manners—*isn't that nice?*

Strong and husky—oh, yes, the ice man will have to be that. No man can lug ice up and down back stairways and in and out of apartments and flats and hotels and be a lackadaisical, delicate, pale Eudymion.

He'll have to have a back and legs and arms and a chest and nose and a lot of good-looking hair and a mouth—well, you know the kind of a mouth he'll have to have.

He'll have to have manners too, nice, easy, friendly, courteous manners, that say: "Oh, how pretty you look in your house dress, if I were only somebody besides the ice-man I'd dare to tell you about it."

And he must have soft speech and a ready wit and he must know all about refrigeration and he's going to wear a uniform.

WINIFRED BLACK

be chosen for his soft eyes and his schoolboy complexion?

Dear me, the men will have to begin to go to beauty parlors, sure enough. Oh, they go now all right, the young fellows, for manicures and massage and manicures, and as for the old fellows—well, what they don't know about facials and shampoos and tonics isn't worth knowing, so the beauty specialists tell me, and beauty specialists never, never fib.

Over in Paris they're using lipsticks—the men, and they've used powder there for a long time. I saw six men with a marcel and five with a massage cream and powder on their faces at a party the other night. One of the six was a lawyer, one was a doctor, one was a newspaper man, two were university students and one was a tired business man. Not one of them in the least effeminate in any other way.

Funny, isn't it, and interesting. Awfully interesting—especially to women.

I wonder what the husbands of the stay-at-home wives think about the handsome ice-man, and what the handsome ice-man thinks or will think of the busy husband—don't you?

Tomorrow's HOROSCOPE

By Genevieve Kemble

WEDNESDAY, FEBRUARY 15. The Universe consists of an infinite number of forces and objects all linked together as one organic whole.

Astrological Theorem.

A generally retarded and complicated state of affairs may be looked for according to the lunar transits. The solar influence, in aspect with Uranus, however, may bring about a certain indefinite commotion the nature of which it is difficult to foresee. It may mean change, but there are obstructions which may be overcome by persistence and determination. Sign all papers with agreements as well. In personal matters there may be a tendency to depression and gloom.

Those whose birthday is are confronted by a year in which there may be stubborn obstacles to overcome by patience and perseverance. Change and turmoil because of obstruction seem imminent and the mental outlook may be gloomy. A child born on this day may be gifted with a determination and dogged perseverance as well as diligence with which to cope with many obstacles in life.

Notable Nativities: Cyrus M. McCormick, inventor.

Three-Minute Journeys

By TEMPLE MANNING

Where the Age of a Cheese Constitutes the Social Register.

FROM the time of Jefferson, it has been the custom to present the newly elected President of the United States with a mammoth cheese. It seems that when Jefferson was elected, the inhabitants of the city of Cheshire, Massachusetts, decided to make a huge cheese larger than any ever before made, and present it to him. Thus was inaugurated a custom which has been adhered to ever since. The cheese was four feet in diameter and eighteen inches high, and in order to make it, levy was laid on every cow in the city.

However, in Switzerland, stress is laid on the age of the cheese rather than on the size of it. Indeed, it is almost possible to rank a person socially after viewing his cheese cellar. The older and more noble the family, the older and richer the cheese. Ancient and patrician Swiss families are known to store in their cellars cheese more than a hundred years old.

These cheese do not, of course, constitute a daily course. They are saved for state occasions, and only brought out at such times as weddings, births and funerals. A very pretty custom is adhered to by the Swiss. At the birth of every child, a huge cheese is made, named for the baby, and ceremoniously buried until the time of his, or her, marriage. Then, with equally appropriate ceremony, it is brought out, and partaken of by the guests as a symbol of good luck to the bride and groom.

An Unusual Ceremony.

to be the Swiss. At the birth of every child, a huge cheese is made, named for the baby, and ceremoniously buried until the time of his, or her, marriage. Then, with equally appropriate ceremony, it is brought out, and partaken of by the guests as a symbol of good luck to the bride and groom.

UNDERTAKERS THRIVE ON CARELESS EATERS

People Who Desire to Live Long and Enjoy a Comfortable Time of It Must Have Fruit and Vegetables.

By ROYAL S. COPELAND, M. D.

United States Senator from New York. Former Commissioner of Health, New York City.

"SINCE our wives have gone to work, we men are being fed out of brown paper parcels and cans. Scientists tell us that men are what they eat. What are we men going to become if our wives keep us on a delicatessen diet?"

This is a quotation from a book I read recently. It makes me think as well as smile. Certainly there will never be a time when unsatisfactory substitutes for real food will replace honest victuals. We must have meat and potatoes, bread and butter, fresh vegetables and fruit. Brown paper parcels and cans cannot put old-fashioned foods out of business. Indeed we mustn't permit the effort to be made.

There is a real place for the products we buy in paper bags and cans. But they must not be eaten to the exclusion of fresh foods.

It is quite necessary, if you would have vigorous health, clear skin and bright eyes, to make daily demands upon the garden and orchard. It is possible now to find in the markets, even of the smaller towns, a bountiful selection of fruits and vegetables. In the country are found apples, winter pears, cabbages, carrots, turnips, celery, and other fresh things. Oranges, grape fruit, grapes and other tropical or semi-tropical or semi-tropical fruits are to be had.

Of course, splendid bread, meat products and other prepared foods can be purchased around the corner. The commercial canners and bakers have done wonders for humanity. However, it is a great mistake to make a practice of living on "store foods" alone. At least twice a day you must sit down for an honest-to-goodness, well cooked, hot meal.

The people who rush through the day, eating a sandwich or a doughnut, and stopping for rest and refreshment, are not fooling the undertaker a particle. He will be on the scene several years before he should be needed.

Nothing is more important to health than regularity at meals, menus which are regularly and systematically good. Have a set time for your meals, take time enough so you can eat leisurely. Make a pleasant ceremony of the meal.

I know men who are so busy making money that they have no time for deliberate eating. I have this comment to make—these men will never have the pleasure of spending the money. They will die prematurely.

To live long and to live happily demands a conscious selection of correctly chosen foods. It will pay you to observe this rule.

DEAR ANNIE LAURIE: I am a schoolgirl going with a boy who wants to marry me. My parents do not like him because he is too old for me. He is 25 and I am 15. I don't like his school, and I want to go to work.

What shall I do? MARY. MARY: You are entirely too young to be considering marriage, my dear, and I strongly advise you to be guided by the advice of your parents. This man is much too old for you and it may be wise to reconsider your friendship with him. I do hope I can persuade you to change your mind about school, MARY. You are evidently too young to realize how important an education will be to you later on. You are lucky to have the opportunity of learning and I would advise you to take advantage of this and absorb all you can get. You will later make an interesting and desirable companion. As long as your parents are willing and able to send you to school, I would advise you to go and gain the knowledge you can. Put aside this idea of work at least until you have finished school; and remember that you will be able to obtain a more desirable position if you are well educated and worthy to assume responsibility.

GOOD-NIGHT STORIES

By Blanche Silver

Doris Meets a New Family.

ONE day in the early Spring as Doris was on her way to Grandma Brown's house, she cut across the woods instead of going around by the big road, and there near the edge of the woods where the brook bubbled over the grassy carpet, she came upon a crowd of queer little birds. They were all sitting on a circle, their tails towards the center.

They were dressed in sober browns, while some had a wee touch of black and white scattered over the vests and throats.

Of course when they spied Doris there was great squawking and scrambling. Brown birds flew and ran in every direction. Two pretty little birds from the crowd stood perfectly still and blinked their black eyes at Doris.

"We're not frightened at you," chirped the fellow with black and white on his coat, "because we have seen you too many times with our elfin friends. I believe your name is Doris and you live at the end of the road in the little yellow house."

"Indeed I am," Doris said, "and Doris very softly for fear they would be startled at the sound of her voice. "But I don't happen to know who you folks are. Do you live around here somewhere?"

"Not so very far away from here," replied the fellow with the black and white vest. "Doris, meet my wife, Mrs. Quail. Some folks call us Bob White and Quail."

"That's the name I like to go by, too," interrupted the other bird. "I like to be called Mrs. Bob White and I don't care for the name of Quail."

"Well, I'm very glad to meet you both," replied Doris. "You don't mean you belong to the family of Quails that the hunters like to shoot?"

"I am sorry to say that's the crowd we belong to," chirped Mr. Bob White.

We're Not Frightened,' Chirped the Bird.

White. "That's why all my relatives hurried away so quickly when you came into the yard. Think hunters certainly do keep us on the jump. But my wife and I have been pretty lucky. We have never been around here. The hunters were near."

"You asked if we lived around here," chuckled Mrs. Bob White. "Come, Bob, let's show Doris our treasure chest."

"Please," begged Doris and she followed Daddy and Mama Bob White into the field at the edge of the woods.

There under a clump of grass so cleverly hidden that Doris would never have seen it, unless someone pointed it out to her, was the dearest of little nests. Mrs. Bob White invited Doris to peek into the little nest, and there just as snug as could be was a nest of pure white, top-shaped eggs.

Doris counted them and there were fifteen little eggs in the treasure chest.

"My goodness! What a family you'll have," she laughed. "A whole party. How in the world will you ever be able to take care of so many?"

"No trouble at all," chuckled Daddy Bob White. "You see they are pretty strong birds and as soon as they hatch, they are ready to follow their Mother around."

"Not only follow me around," mused the proud Mother Bird. "But they are ready to help their Daddy and I clean up the weevil and eat the seeds of weeds that insist on growing in the crannies of your garden bed. You see, we try to runny your Daddy for having his ground plastered with 'no hunting' signs. Come, Daddy, we must tell the others who Doris is, so they won't run when they see her to tell where their treasure is hidden. Mr. and Mrs. Bob White hurried away to find their friends, while Doris ran on across the fields to Grandma Brown's house.

DEAR ANNIE LAURIE: I am a schoolgirl going with a boy who wants to marry me. My parents do not like him because he is too old for me. He is 25 and I am 15. I don't like his school, and I want to go to work.

What shall I do? MARY. MARY: You are entirely too young to be considering marriage, my dear, and I strongly advise you to be guided by the advice of your parents. This man is much too old for you and it may be wise to reconsider your friendship with him. I do hope I can persuade you to change your mind about school, MARY. You are evidently too young to realize how important an education will be to you later on. You are lucky to have the opportunity of learning and I would advise you to take advantage of this and absorb all you can get. You will later make an interesting and desirable companion. As long as your parents are willing and able to send you to school, I would advise you to go and gain the knowledge you can. Put aside this idea of work at least until you have finished school; and remember that you will be able to obtain a more desirable position if you are well educated and worthy to assume responsibility.

Leisure a Blessing If Women Only Knew How to Use It

UNEMPLOYED TIME BRINGS DISCONTENT

Feminine Foibles

By Marie Marot

Women Who Attempt to Fill Their Lives with Bridge, Dances and Teas Rarely Are as Happy as the Workers.

By DR. LOUIS E. BISCH

In this age of hustle and bustle there is growing up a gradual but the same time strong and sensible sentiment in favor of more leisure.

All of us need leisure—men and women, young and old. We should have our play time like children. We must learn how to relax. We must learn that leisure makes us more efficient in the end, that it is not a waste of time, that it prepares us for better work afterwards.

However, there is leisure and leisure! And, unfortunately, it would seem that the women folk who have the best opportunities for leisure, often waste it most recklessly and foolishly.

From eight to nine million women are employed in gainful occupations in the United States. The number of men employed is about thirty-three million.

Between 1910 and 1920 the increase of women workers was only about half a million.

In other words, not more than one-quarter of the female population of America seems to be employed outside the home. Millions of women, of course, are employed inside the home. And such employment is anything but easy.

Housework, child-rearing, home building is anything but a simple job. It is as strenuous as any office or factory employment if it be carried out conscientiously.

But work inside the home does yield one big advantage over the regulated schedule of work outside. The advantage is that the woman is more or less her own boss and can, with thought and planning, allow herself a certain amount of leisure during the day.

But do such women who can plan for leisure or who, because of wealth are not compelled to work inside the home, do they make the best use of their opportunities?

We are inclined to believe that they do not. One constantly sees women frittering away their time, wasting it, with practically no worthwhile return.

Often the chief time killers of women are bridge, teas, dances, gossip, self-admiration before the mirror, dressing and shopping. There are women, indeed, who do nothing more important than that day in and day out throughout their entire lives. It is astonishing, for instance, how many women never read a newspaper.

Only a comparatively small percentage of women read books. Few are interested in vital questions of the day. Many know how to sew, embroider, and do millinery, but they prefer to loiter around the house wondering what they might do to amuse themselves.

Is it any wonder, then, that so many women are dissatisfied and discontent? Should we really marvel that the women with the most leisure are really the worst off? If leisure is thus dissipated to unproductive ends it acts invariably like a boom-crash and the greater the amount on hand the more devastating the results.

What women need is more common sense mixed with their play time. Leisure can be made constructive and stimulating the same as work. It should be considered a blessing and should be conserved.

The woman who wastes her precious leisure is, in effect, a pitiable object.

FELICE: "I am so glad veils are back again!"
RITA: "So am I. And the nice thing about these cunning little nose veils is that one may wear them in the evening."

Iceemen Must Have "It"—Association Rules

By WINIFRED BLACK

WHAT, you haven't heard about the new plan concerning ice-men? I'll tell it to you.

The association of ice industries had a convention the other day and the members talked over the ice situation, so much a pound and so many pounds to the ton and so much time for delivery—but, the principal thing they talked about was the ice-man.

And what do you think the association decided?

I'll tell you that, too—see how good-natured I am today. The association decided that the ice-man this year will be chosen with an eye for good looks and charming manners—isn't that nice?

Strong and husky—oh, yes, the ice man will have to be that. No man can lug ice up and down back stairways and in and out of apartments and hotels and be a lackadaisical, delicate, pale Eudymion.

He'll have to have a back and legs and arms and a chest and nose and a lot of good-looking hair and a mouth—well, you know the kind of a mouth he'll have to have.

He'll have to have manners too, nice, easy, friendly, courteous manners, that say: "Oh, how pretty you look in your house dress, if I were only somebody besides the ice-man I'd dare to tell you about it."

And he must have soft speech and a ready wit and he must know all about refrigeration and he's going to wear a uniform

if you please, smart as smart, with service stripes, I suppose, the longer he stays with the company.

Well, well—maybe we won't hear so much about the "drug-ery" of house work when the handsome ice-men appear. I wonder what the garbage man is going to do—will he have to be handsome, too? And the grocer's delivery boy—will he

WINIFRED BLACK

be chosen for his soft eyes and his schoolboy complexion?

Dear me, the men will have to begin to go to beauty parlors, sure enough. Oh, they go now all right, the young fellows, for marcel and massage and manicures, and as for the old fellows—well, what they don't know about facials and shampoos and tonics isn't worth knowing, so the beauty specialists tell me, and beauty specialists never fib.

Over in Paris they're using lipsticks—the men, and they've used powder there for a long time. I saw six men with a marcel and five with a massage cream and five with a powder on their faces at a party the other night. One of the six was a lawyer, one was a doctor, one was a newspaper man, two were university students and one was a tired business man. Not one of them was in the least effeminate in any other way.

Funny, isn't it, and interesting. Awfully interesting—especially to women.

I wonder what the husbands of the stay-at-home wives think about the handsome ice-man, and what the handsome ice-man thinks or will think of the busy husband—don't you?

Tomorrow's HOROSCOPE

By Genevieve Kemble

WEDNESDAY, FEBRUARY 15.

The Universe consists of an infinite number of forces and objects all linked together as one organic whole.

—Astrological Theorem.

A generally retarded and complicated state of affairs may be looked for according to the lunar transits. The solar influence, in aspect with Uranus, however, may bring about a certain indefinite commotion the nature of which it is difficult to foresee. It may mean change, but there are obstructions which may be overcome by persistence and determination. Sign all papers with caution and be careful in verbal agreements as well. In personal matters there may be a tendency to depression and gloom.

Those whose birthday it is are confronted by a year in which there may be stubborn obstacles to overcome by patience and perseverance. Change and turmoil because of obstruction seem imminent and the mental outlook may be gloomy. A child born on this day may be gifted with a determination and dogged perseverance as well as diligence with which to cope with many obstacles in life.

Notable Nativities: Cyrus M. McCormick, inventor.

Three-Minute Journeys

By TEMPLE MANNING

Where the Age of a Cheese Constitutes the Social Register.

FROM the time of Jefferson, it has been the custom to present the newly elected President of the United States with a mammoth cheese. It seems that when Jefferson was elected, the inhabitants of the city of Cheshire, Massachusetts, decided to make a huge cheese, and present it to him. Thus was inaugurated a custom which has been adhered to ever since. The cheese was four feet in diameter and eighteen inches high, and in order to make it, levy was laid on every cow in the city.

However, in Switzerland, stress is laid on the age of the cheese rather than on the size of it. Indeed, it is almost possible to rank a person socially after viewing his cheese cellar. The older and more noble the family, the older and richer the cheese. Ancient and patrician Swiss families are known to store in their cellars cheese more than a hundred years old.

These cheese do not, of course, constitute a daily course. They are saved for state occasions, and only brought out at such times as weddings, births and funerals.

A very pretty custom is adhered to by the Swiss. At the birth of every child, a huge cheese is made, named for the baby, and ceremoniously buried until the time of his or her marriage. Then, with equally appropriate ceremony, it is brought out, and partaken of by the guests as a symbol of good luck to the bride and groom.

An Unusual Ceremony.

UNDERTAKERS THRIVE ON CARELESS EATERS

People Who Desire to Live Long and Enjoy a Comfortable Time of It Must Have Fruit and Vegetables.

By ROYAL S. COPELAND, M. D.

United States Senator from New York.

Former Commissioner of Health, New York City.

"SINCE our wives have gone to work, we men are being fed out of brown paper parcels and cans. Scientists tell us that men are what they eat. What are we men going to become if our wives keep us on a delicatessen diet?"

This is a quotation from a book I read recently. It makes me think as well as smile.

Certainly there will never be a time when unsatisfactory substitutes for real food will replace honest victuals. We must have meat and potatoes, bread and butter, fresh vegetables and fruit. Brown paper parcels and cans cannot put old-fashioned foods out of business. Indeed we mustn't permit the effort to be made.

There is a real place for the products we buy in paper bags and cans. But they must not be eaten to the exclusion of fresh foods.

It is quite necessary, if you would have vigorous health, clear skin and bright eyes, to make daily demands upon the garden and orchard. It is possible now to find in the markets, even of the smaller towns, a bountiful selection of fruits and vegetables.

In the country are found apples, winter pears, cabbages, carrots, turnips, celery, and other fresh things. Oranges, grape fruit, grapes and other tropical or semi-tropical fruits are to be had in abundance.

Of course, splendid bread, meat products and other prepared foods can be purchased around the corner. The commercial canners and bakers have done wonders for humanity.

However, it is a great mistake to make a practice of living on "store foods" alone. At least twice a day you must sit down for an honest-to-goodness cooked, hot meal.

The people who rush through the day's work, eating a sandwich or a doughnut from the hand at lunch time, not stopping for rest and refreshment, are not fooling the undertaker a particle. He will be on the job several years before he should be needed.

Nothing is more important to health than regularity at meals, menus which are regularly and systematically good. Have a set time for your meals, take time enough so you can eat leisurely. Make a pleasant ceremony of the eating of the food.

I know men who are so busy making money that they have no time for deliberate eating. I have this complaint: these men will never have the pleasure of spending the money. They will die prematurely.

To live long and to live happily demands the proper eating of correctly chosen food. It will pay you to observe this rule.

GOOD-NIGHT STORIES

By Blanche Silver

Doris Meets a New Family.

ONE day in the early Spring as Doris was on her way to Grandma Brown's house, she cut across the woods instead of going around by the big road, and there near the edge of the woods where the brook bubbled over the grassy carpet, she came upon a crowd of queer little birds. They were all sitting in a circle, their tails towards the center.

They were dressed in sober browns, while some had a wee touch of black and white scattered over the vests and throats.

Of course when they spied Doris these were great squawking and scrambling. Brown birds flew and ran in every direction. Two pretty little fellows from the crowd stood perfectly still and blinked their black eyes at Doris.

"We're not frightened at you," chirped the fellow with black and white on his coat, "because we have seen you too many times with your elfin friends. I believe your name is Doris and you live at the end of the road in the little yellow house."

"Indeed I do, Mr. Birdie," said Doris very softly for fear they would be startled at the sound of her voice. "But I don't happen to know who you folks are. Do you live around here somewhere?"

"Not so very far away from here," replied the fellow with the black and white cravat. "Doris, meet my wife, Mrs. Quail. Some folks call us Bob White and—"

"That's the name I like to go by, too," interrupted the other bird. "I came into sight so quickly when you called me called Mrs. Bob White and I don't care for the name of Quail."

"Well, I'm very glad to meet you both," replied Doris. "You don't mean you belong to the family of Quails that the hunters like to shoot?"

"I am sorry to say that's the crowd we belong to," chirped Mr. Bob White.

PRAYER—"The heavens declare the glory of God, And the firmament sheweth His handiwork."

Good Manners on the Road.

In England people have organized a movement to promote good manners among automobile drivers. They call it a Road Fellowship League. The idea is to induce people to behave themselves with sense and consideration. A code for correct and courteous behavior is to be adopted.

This suggests an approach to the problem of proper automobile driving that should be effective in this country. Up to now we have depended principally upon the methods of the law to restrain reckless driving. But frequently the law is not the most effective way of regulating human conduct.

If you made a law that women should not wear short skirts, the chances are 100 to 1 that it would be disregarded. But if all the leading women began to wear long dresses, then within six months practically all the women would be wearing them. That shows that if it can be made the fashionable thing to act in a certain way, people will hasten to do so.

Now if that principal could only be applied to automobile operation, it should be effective. If people who drive through the streets in a discourteous manner could realize that their actions were watched, and that they were getting in bad in their home towns, they would avoid displays of bad manners.

When people get into an automobile they often feel that those who see them drive do not know who they are, consequently they can do as they like. So many drivers will act differently when they go through a straight place, from what they will right around home where they are known. We need to cultivate public sentiment to act in a reckless and discourteous manner, and which will condemn those who are rightfully complained of for violation of automobile regulations.

Automobile Speed Limits.

A good many people interested in automobiles believe the time will come before long when all legally fixed limits for automobile speeds will be abolished. They think that it is impossible for the law to fix any speed as the maximum for safety, and they remark that it may be perfectly safe for a driver to go 60 miles an hour in some locations where in congested districts 20 miles would be safe.

Public sentiment has changed on this question. For some time speeds of 25 miles an hour and more were commonly thought dangerous. But as time went on, automobiles were driven faster and people got used to speed, until now a large part of the cars are driven at rates that would once have been thought a menace.

It is claimed that to establish a maximum limit of 25, 40 or even more miles an hour, means that many people will constantly violate the law which makes enforcement difficult, and that it would be better to make the legal speed depend upon the conditions existing at the particular place and time.

A driver may have the right to take his own risks, where only he himself is involved. But where his fast driving endangers passengers in his car, there the law can properly restrain him. People may claim that rapid driving is perfectly safe, but many fast drivers come to grief and they run into cars driven by careful drivers. It is unfortunate to have a lot of laws on the statute books that are only half enforced, and it is also a terrible tragedy that all these automobile accidents are occurring without any way in sight to stop them.

Model Towns.

People who sympathize with community progress movements were interested to learn of plans for a model town in the New York city suburbs near Paterson, New Jersey, in developing which over \$50,000,000 will be eventually spent. It will make the residents of many older cities envious, to think how such a community can be built up in accordance with the best modern ideas, avoiding the many mistakes made in creating most American towns.

Still, any community can become a model town to a large extent, by progressive acceptance of new ideas and the prevailing spirit of improvement. If the householders are proud of fine looking homes and business places, and maintain and beautify them carefully, they will come near having a model town, even if their homes and business buildings look old fashioned.

The Younger Vanderbilt.

It is impossible not to feel a great deal of sympathy for young Cornelius Vanderbilt as he struggles to pay off the \$1,250,000 debts his venture into the publishing business has brought him.

Vanderbilt, born to riches and social position, could have been an idler all his life. He could have devoted himself to one of those delightful careers that some rich men find so enjoyable: yachting, polo, travel and so on. But he didn't. He wanted to do something, to be a worker.

It cost him a fortune. His family is indignant with him. One gathers that there is a feeling that he has somehow disgraced the family name.

We don't agree. It seems to us that he has added a good deal of luster to it.

Shoe retailers announce a plan of making us wear better shoes by making us foot conscious. Now maybe somebody will introduce some plan of making us wear better hats.—Lima, O., News.

The RAMBLER

By NORMAN W. RALSTON

MUD PIES

MAKIN'
Mud pies in
The sand,
What a happy day!
Everybody
Feelin' grand,
Who cares for
Dismay!
And she made one
For me, too,
Asked me if I'd
Eat it,
And my face turned
Black and blue—
Didn't dare
To beat it!
Mud? But modern
Pumpkin pie, doesn't taste so
Sweet,
And I didn't bat an
Eye—
Who would dare
Retreat;
And grown sincerely fond of Fabien and
Flaxen curls and
Happy face,
Everyone would love
Her,
Eatin' mud pie's
No disgrace,
For they're far
Above her;
Childhood is a
Pleasant time,
Ah, too soon
It leaves—
Life foreshakes
Its smoother
Rhyme
And a sad heart
Grieves—

And what we mean to say
Is,
Keep on making "mud
Pies," friend,
It's a pleasant life,
If you would achieve
An end
To your toil and strife;
Life is weary,
Life is glad,
Life is what you make
It,
And it's either good
Or bad,
Just know how
To take it.

The strange part about life is that you don't always want something until you find you can't have it.

A woman's reason is "because" and lots of times that's all it amounts to.

PINES

Someone has written me from Piqua (O.) asking if I'd reproduce the poem "Pines" written on September 17th, 1924, when I was away on a vacation, up in the land of pines, and so here it is, while the muse works:

Pines are like ideals reaching toward God,
Rearing their heads from the sordid sod,
Lifting their branches from common-place things
Into the finest things Life sometimes brings.

Pines are like visions out of the dust,
Distinctive from greed and clamor and lust;
In each spreading branch new longings lies
For the infinite things one finds in the skies.

Pines are the gods of the forest clan
And the wisdom they preach is the soul of man,
Forever seeking a place so high
Where ethereal things were not meant to die.

—Norman W. Ralston, Sept. 17, 1924.

One of the steady-going young men of this neighborhood is thinking of marrying one of our wild girls to reform her, and that's another day we never expected to live to see but did, is Bob Ryder's observation today.

We live to learn, Bob, and the first thing we know some of the young girls of our set may be taking the whiskey cure.

A wild woman never seems so wild as she does to the neighborhood man who was only kissed once in her life and then married the poor man.

It seems the country is more interested in the Legs of Nations than the League.

TODAY'S BEST STORY

"Are you in favor of prohibition?"
"I am," answered Uncle Bill Bottletop. "I want the law enforced."
"For what reason?"
"Loneliness. I'm tired of being the only sober man in the community."—Selected by H. L. RAM.

CIRCLEVILLE 25 YEARS AGO

Feb. 14, 1903.

Col. Sam Fuller went to Columbus on business this morning.

A new club has been organized to be known as the Rain or Shine Club. The members are: Miss Bessie Gray, Miss Hattie Miller, Miss Fannie Sapp, Miss Blume Parrett, Miss Brunelle Parrett, Miss Minnie Westenhaver, Mr. George Foreman, Mr. Frank Harrison, Mr. James Curl, Mr. Howard Peters and Mr. Harry McMahon.

Some one entered the pelt house of Caddy Miller last night and stole pelts to the value of \$20.

tization of this novel.

SYNOPSIS

Fabien, good and handsome youth of France, trains for the priesthood; but meets and loves Manon Lescaut, beautiful orphan, whose rascally brother, realizing her worldly value, barters her to Ravoire, connoisseur of women. Fabien saves her and carries her off to Paris. Manon's brother steals her for Ravoire. Circumstances force her to surrender to Ravoire. She rejoins Fabien, and they live so extravagantly that Fabien is forced to capitalize a genius for cards. The King plays Fabien at cards for Manon, and accuses him of cheating.

CHAPTER XVII—Continued

Lescaut, better than anyone in the room, appreciated the seriousness of the situation. He had grown sincerely fond of Fabien and Manon and wondered what he could do to help relieve the situation.

After what seemed an eternity the King rose and said contemptuously, "Monsieur le Chevalier, you are a cheat—the stake is mine!"

At the first move from King Louis Fabien also rose to his feet and under cover of getting up he made a quick, significant gesture to Lescaut to get Manon out of the room.

No sooner was the sign made than Lescaut rose to the occasion and started guiding her toward the

Fabien turned back toward the stairs and cleverly kept his adversaries at bay.

door. The Comte, however, understood and attempted to block their way.

"Sire, you are the King," said Fabien, quietly addressing His Majesty, "and one dares not say of one's King and he cheats."

The King was speechless with amazement.

The crowd gasped—could it be possible? Two aces of diamonds were played. Did the King substitute or did he cheat?

The Duc de Richelieu and other loyal subjects sprang to the defense of their King with drawn swords, and Fabien found himself facing them alone.

CHAPTER XVIII

Two powerful guards joined the Comte and prevented Lescaut taking Manon from the room. King Louis' prey was trapped.

Through virtue of his title the King was master of the situation and no one dared do anything without his sanction or a word from the Duc de Richelieu.

Not even a whisper was heard in the great salon.

With unexpected suddenness His Majesty's little evening of pleasure had come to a rude halt. It was unheard of for a man to oppose the King's will. It had never been known to happen before, and Louis was the most surprised person there. Many times in the past he had selected a woman and gotten her without so much opposition and trouble. But never before had he dealt with as devoted a lover and protector as Fabien. Unfortunately the whole incident savored of scandal that he could ill afford to become a part of in such a public place.

After a whispered word to the Duc, Louis retreated from the room. He walked slowly, with head erect and no indication of fear, but it was nevertheless a forced retreat. The crowd divided and made an isle for their King, that led him to a private room at the head of the stairs. He was compelled to pass within a few feet of Manon who, under Lescaut's surreptitious guidance, was being gradually pushed toward the entrance doors in a vain hope of escape.

If it had not been for fear of public criticism, King Louis would have taken Manon with him and thus brought the matter to a sat-

isfactory finish; instead, he whispered to the Comte de Ravoire: "See that she is brought to me in your room, without delay!"

The Comte's head bowed in obedience, but inwardly he rebelled at the idea. Manon must be his again. Of that much he was determined, in spite of the fact that she was the King's property won from her lover in a card game.

Back by the table the Duc de Richelieu was saying to Fabien, "Monsieur, Des Grieux, I demand that you apologize to your King!" Fabien's only answer was a mocking laugh!

The crowd gasped in amazement, as one man. Quick to avenge the brazen insult Richelieu drew his sword. No sooner had the long steel flashed from its sheath than Fabien's ready blade crossed it in mid air with a resounding clang! It was only the work of a moment to disarm the Duc de Richelieu, although the small victory gave Fabien no advantage, as other loyal supporters of the King closed in and opened attack.

For a brief second Fabien dared search for Manon in the crowd—he saw that Lescaut was leading her up the stairs and that the Comte was struggling to push through the surging mass and reach her side! With a mighty effort Fabien turned his back toward the stairs and cleverly kept his adversaries at bay while working backward, step by step in the direction of Manon. His one desire was to reach her. He bravely fought three or four men at a time, while others stood ready to enter when their friends fell.

Fabien proved himself as unconquerable with the sword as he had been at the card table. Finally, the cowardly, joint, attack of several noblemen succeeded in disarming him. But if they anticipated a calm surrender they were mistaken. Fabien was fighting for the only thing in the world that made life worth living and he knew that if he was captured Manon would be made an unwilling prisoner in the King's Palace. The very thought of it gave Fabien new strength to carry on.

Deprived of his weapon it was necessary to do something without further delay. He leaped on top of a nearby table and swinging a chair from the floor raised it on high and brought it down with dangerous force upon the heads and swords of the men who tried to wound or capture him.

Fabien fought like a ferocious animal of the wild, trapped by a band of hunters in his lair. His daring and very fierceness seemed to intimidate them. Their swords could not get past that chair that he swung about him in deadly circles.

The success gained by his strategic position gave him a moment's respite. Immediately he looked for Manon. To his horror he saw the Comte pushing her into a private room at the head of the stairs while two of the King's Guards seized Lescaut and prevented him going with her.

Fabien's sanity almost snapped at thought of what might be Manon's fate behind that closed door. He had no sword and it appeared that the entire salon full of people were against him. What could he do?

Down at the other end of the hall some servants were entering with long clubs that were destined to dislodge him from his place on the table. He threw his weapon—the chair—at the people who were between the table and the staircase; then with a superhuman effort he crouched and leaped over the sprawling men onto the back of a guard at the foot of the stairs. Before anyone was quite aware of what had happened, Fabien began fighting his way up the stair case.

One man with a little more courage than the others climbed up the balustrade and surprised him by lunging at him with all force. They fell together to the landing. In the fight that ensued Fabien wrested his adversary's sword from his hand and stood on the blade to protect it while he hurled the man bodily upon the crowd below, as they fought to come up the stairs.

Encouraged by the comforting feel of a sword in his hand again, Fabien fought like a demon. Finally only one man remained between him and the door he had seen Manon enter, what seemed to be an eternity ago. With a sharp cry the man fell back, gasping from the pain in his shoulder. Fabien withdrew his sword and rushed to the closed door that kept Manon from him. It was locked!

Glancing down the corridor he saw Lescaut entering another door—perhaps the one he had reached it was too great. He pushed and thumped against the locked panel with the entire strength of his body. The lock snapped! He entered and closed the door behind him just as the angry supporters of the King surged upon the landing.

Build Artificial Lake In North Wales As Part Of New Electric Scheme

BANGOR, Wales, Feb. 14.—(IN S.)—An artificial lake covering an area of three square miles and comparable in its beauty of setting to any natural sheet of water in the country, is one of the features of the new North Wales electric power scheme, which will be in working order next July.

For three years, 1,000 men have been at work to harness for electrical purposes, the rainfall of 36 square miles of mountains round Trawsfydd, in North Wales. As soon as the official opening

has taken place work will be started to increase the size of the lake to five square miles.

The lake will supply much of the North of England. The turbines have an output of 9,000 brake h. p. working at 333 revolutions per minute.

Plain Facts About Investments RUSSIAN RAILROAD BONDS

By W. S. COUSINS, International News Service Financial Editor

NEW YORK, Feb. 14.—(INS)—

Secretary Kellogg of the State Department will have the backing of thousands of investors and conservative business men in the United States in his firm stand against the sale of Russian Government railroad bonds in the United States.

Mr. Kellogg in all sincerity asks why the Soviet authorities should be encouraged in their efforts to

exchange their promise-to-pay for good American money when the Soviets have repudiated the debts contracted with individuals and other governments during the war, and railroad bonds issued by other Russia roads have been repudiated by the Soviet Government.

Of course, what an investor or a business man purchases with his own money is his own affair, and those who wish to take Russian bonds in settlement of debts or in exchange for goods have a perfect right to do so. But both the Federal government and the state governments have felt a sense of responsibility for the admission of securities of various types into their market, clamping down the lid on what they believed to be unsafe or undesirable. The "Blue Sky" laws adopted by various states represent the sincerity of purpose on the part of our lawmakers rather than their practical understanding of the simple elements of financing through the sale of securities.

With such a clear and unmistakable precedent as the refusal of the Russian government to recognize and pay the debts contracted by her official representatives before and after the war, it is not difficult to see that the future offerings of her bonds belong in the undesirable class. In the world of business, a man's word is as good as his bond, until such time as neither is found to be acceptable to his fellow man. For obvious reasons, business intercourse with his fellow men must then cease, since no man or corporation can continue furnishing goods or services to those who are unable or unwilling to meet their obligations.

Before the United States entered the war, the Russians borrowed hundreds of millions of dollars from the French Government. This was in turn borrowed from the French people, at a time when they were giving the last drop of their blood, and risking all they had to provide the means to hurl back the German invader. Absolute refusal of the Soviet to recognize this debt or to make an effort to repay it has been a keen disappointment to the French, and may be considered as one of the great obstacles to the

payment of France's war debt to our government.

The matter of foreign borrowing raises anew the question of the safety of funds put into the obligations of foreign governments and corporations. In many cases the new bond issues represent an ironclad first lien against valuable assets or positive incomes which cannot in any way be repudiated, so long as courts are able to function and law and order prevail. But the unsecured pledges of weak governments and poorly-financed industrial corporations are not always worth their face value, the fact of which too many investors appreciated only after the market values of their securities have shrunk almost beyond recognition. It is then too late to call in the finance doctor.

Experience has shown that some of our American banking syndicates are not qualified to put an equitable price on some of the European bond issues they have recently been distributed among investors in the New York market. This is evidenced by the sharp declines in market prices of bonds with the dissolution of the syndicates, and the consequently withdrawal of the artificial support from the bonds in the listed market. The inference is that bonds which cannot stand on their own feet should be left distinctly alone, instead of being scattered among investors who do not know what they are purchasing.

The comparatively high yields on foreign bonds should contain the first warning to investors that these issues are not as desirable from the standpoint of safety as are good American bonds paying half as much interest per year as safety as good American bonds paying half as much interest per year. Safety of principal in the first consideration in bond buying, an elementary principle that many people learn too late.

Ask Parliament Act To Forgive Crimes of Soldiers Dead In War

BIRMINGHAM, Eng., Feb. 14.—(INS)—A plea that death on the battlefield should be deemed sufficient to expiate any previous offenses, was made here by Sir Henry Maddocks, K. C., the Recorder of Birmingham, when he charged the grand jury at the quarter sessions.

"It is purely a matter of sentiment," Sir Henry declared. "It appeals to me because I think it is only a matter of justice that those who give their lives in the service of the country should be able to expect from us that their transgressions should, so far as humanly possible, be blotted out."

Sir Henry said he believed an Act of Parliament could be passed expiating all crimes convicted by soldiers who died in battle, so that their relatives would then find nothing to discredit on record.

It looks as though Colonel Lindbergh's reported "nervousness" may have been due to his desire to take to flying once more in "The Spirit of St. Louis."—Steubenville, O., Herald Extra.

PRAYER—"The heavens declare the glory of God, And the firmament showeth His handiwork."

Good Manners on the Road.

In England people have organized a movement, to promote good manners among automobile drivers. They call it a Road Fellowship League. The idea is to induce people to behave themselves with sense and consideration. A code for correct and courteous behavior is to be adopted.

This suggests an approach to the problem of proper automobile driving that should be effective in this country. Up to now we have depended principally upon the methods of the law to restrain reckless driving. But frequently the law is not the most effective way of regulating human conduct.

If you made a law that women should not wear short skirts, the chances are 100 to 1 that it would be disregarded. But if all the leading women began to wear long dresses, then within six months practically all the women would be wearing them. That shows that if it can be made the fashionable thing to act in a certain way, people will hasten to do so.

Now if that principal could only be applied to automobile operation, it should be effective. If people who drive through the streets in a discourteous manner could realize that their actions were watched, and that they were getting in bad in their home towns, they would avoid displays of bad manners.

When people get into an automobile they often feel that those who see them drive do not know who they are, consequently they can do as they like. So many drivers will act differently when they go through a straight place, from what they will right around home where they are known. We need to cultivate public sentiment to act in a reckless and discourteous manner, and which will condemn those who are rightfully complained of for violation of automobile regulations.

Automobile Speed Limits.

A good many people interested in automobiles believe the time will come before long when all legally fixed limits for automobile speeds will be abolished. They think that it is impossible for the law to fix any speed as the maximum for safety, and they remark that it may be perfectly safe for a driver to go 60 miles an hour in some locations where in congested districts 20 miles would be safe.

Public sentiment has changed on this question. For some time speeds of 25 miles an hour and more were commonly thought dangerous. But as time went on, automobiles were driven faster and people got used to speed, until now a large part of the cars are driven at rates that would once have been thought a menace.

It is claimed that to establish a maximum limit of 25, 40 or even more miles an hour, means that many people will constantly violate the law which makes enforcement difficult, and that it would be better to make the legal speed depend upon the conditions existing at the particular place and time.

A driver may have the right to take his own risks, where only he himself is involved. But where his fast driving endangers passengers in his car, there the law can properly restrain him. People may claim that rapid driving is perfectly safe, but many fast drivers come to grief and they run into cars driven by careful drivers. It is unfortunate to have a lot of laws on the statute books that are only half enforced, and it is also a terrible tragedy that all these automobile accidents are occurring without any way in sight to stop them.

Model Towns.

People who sympathize with community progress movements were interested to learn of plans for a model town in the New York city suburbs near Paterson, New Jersey, in developing which over \$50,000,000 will be eventually spent. It will make the residents of many older cities envious, to think how such a community can be built up in accordance with the best modern ideas, avoiding the many mistakes made in creating most American towns.

Still, any community can become a model town to a large extent, by progressive acceptance of new ideas and the prevailing spirit of improvement. If the householders are proud of fine looking homes and business places, and maintain and beautify them carefully, they will come near having a model town, even if their homes and business buildings look old fashioned.

The Younger Vanderbilt.

It is impossible not to feel a great deal of sympathy for young Cornelius Vanderbilt as he struggles to pay off the \$1,250,000 debts his venture into the publishing business has brought him.

Vanderbilt, born to riches and social position, could have been an idler all his life. He could have devoted himself to one of those delightful careers that some rich men find so enjoyable yachting, polo, travel and so on. But he didn't. He wanted to do something, to be a worker.

It cost him a fortune. His family is indignant with him. One gathers that there is a feeling that he has somehow disgraced the family name.

We don't agree. It seems to us that he has added a good deal of luster to it.

Shoe retailers announce a plan of making us wear better shoes by making us foot conscious. Now maybe somebody will introduce some plan of making us wear better hats.—Lima, O., News.

The RAMBLER

By NORMAN W. RALSTON

MUD PIES

MAKIN' Mud pies in the sand,
What a happy day!
Everybody Feelin' grand,
Who cares for Dismay!
And she made one For me, too,
Asked me if I'd Eat it,
And my face turned Black and blue—
Didn't dare To beat it!—
Mud? But modern Pumpkin pie, doesn't taste so Sweet,
And I didn't bat an Eye—
Who would dare Retreat;
Flaxen curls and Happy face,
Everyone would love Her,
Eatin' mud pie's No disgrace,
For they're far Above her;
Childhood is a Pleasant time,
Ah, too soon It leaves—
Life foreshakes Its smoother Rhyme
And a sad heart Grieves—

And what we mean to say Is,
Keep on making "mud Pies," friend,
It's a pleasant life,
If you would achieve An end
To your toil and strife;
Life is weary,
Life is glad,
Life is what you make It.
And it's either good Or bad,
Just know how To take it.

The strange part about life is that you don't always want something until you find you can't have it.

A woman's reason is "because" and lots of times that's all it amounts to.

PINES

Someone has written me from Piqua (O.) asking if I'd reproduce the poem "Pines" written on September 17th, 1924, when I was away on a vacation, up in the land of pines, and so here it is, while the muse works:

Pines are like ideals reaching toward God,
Rearing their heads from the sordid sod,
Lifting their branches from common-place things
Into the finest things Life sometimes brings.

Pines are like visions out of the dust,
Distinctive from greed and clamor and lust;
In each spreading branch new longings lie
For the infinite things one finds in the skies.

Pines are the gods of the forest clan
And the wisdom they preach is the soul of man,
Forever seeking a place so high
Where ethereal things were not meant to die.

—Norman W. Ralston, Sept. 17, 1924.

One of the steady-going young men of this neighborhood is thinking of marrying one of our wild girls to reform her, and that's another day we never expected to live to see but did, is Bob Ryder's observation today.

We live to learn, Bob, and the first thing we know some of the young girls of our set may be taking the whiskey cure.

A wild woman never seems so wild as she does to the neighborhood man who was only kissed once in her life and then married the poor man.

It seems the country is more interested in the Legs of Nations than the League.

TODAY'S BEST STORY

"Are you in favor of prohibition?"
"I am," answered Uncle Bill Bottletop. "I want the law enforced."
"For what reason?"
"Loneliness. I'm tired of being the only sober man in the community."—Selected by H. L. RAM.

HOW ABOUT?

By ED. W. HOWE

© Bell Syndicate, WNU Service

For centuries the impression has been given, in literature that only artists, writers, preachers, men, women are good souls, and long for human betterment. And for centuries, also, it has been practical business men who have made such progress in human betterment as has been made.

A woman member of the English parliament is very active in trying to reform the world, but is badly handicapped by the mean male members; one of them lately said to her: "I will answer if you shut your mouth and listen. You might at least try to have some manners and sense."

Some say it is no disgrace to be poor. It is except in literature. A poor man is like a mechanic who works at his trade many years, and knows nothing about it. The financial side of life is very important. It is a mistake to study art, religion, and neglect finance.

"I have noticed," an old fellow writes, "that when I am out in company and no lady member of my family is present to look after me some other woman chides me gently as I ill behave. Or as she thinks I do; men and women never agree as to that."

I don't believe it is best for a young fellow to start out to be a great man. It is better if he starts out to be a good workman in whatever calling he adopts. The great men come from the good workmen, promoted for merit.

The devil is busy. Sometimes he does not pitch promptly, but usually gets around to it finally. Even if a man escapes entirely, his worrying about it amounts to punishment.

Much of the literature of love serves to give young men a course in the old art of deception; but fortunately it also teaches young women the art of defense.

Some men slouch through life instead of being police, active and effective agents for the wars they sell; and must sell to make a living.

If a critic is not able to write in an amusing and smart way, he amounts to nothing. Certainly we do not accept his judgment; we have our own we are very partial to.

I sometimes think there is nothing a crazy man dreams might be done that cannot be done. I am half convinced that fiction is only a record of things we do not know about.

exchange their promise-to-pay for good American money when the Soviets have repudiated the debts contracted with individuals and other governments during the war, and railroad bonds issued by other Russia roads have been repudiated by the Soviet Government.

Of course, what an investor or a business man purchases with his own money is his own affair, and those who wish to take Russian bonds in settlement of debts or in exchange for goods have a perfect right to do so. But both the Federal government and the state governments have felt a sense of responsibility for the admission of securities of various types into their market, clamping down the lid on what they believed to be unsafe or undesirable. The "Blue Sky" laws adopted by various states represent the sincerity of purpose on the part of our lawmakers rather than their practical understanding of the simple elements of financing through the sale of securities.

With such a clear and unmistakable precedent as the refusal of the Russian government to recognize and pay the debts contracted by her official representatives before and after the war, it is not difficult to see that the future offerings of her bonds belong in the undesirable class. In the world of business, a man's word is as good as his bond, until such time as neither is found to be acceptable to his fellow man. For obvious reasons, business intercourse with his fellow men must then cease, since no man or corporation can continue furnishing goods or services to those who are unable or unwilling to meet their obligations.

Before the United States entered the war, the Russians borrowed hundreds of millions of dollars from the French Government. This was in turn borrowed from the French people, at a time when they were giving the last drop of their blood, and risking all they had to provide the means to hurl back the German invader. Absolute refusal of the Soviet to recognize this debt or to make an effort to repay it has been a keen disappointment to the French, and may be considered as one of the great obstacles to the

THE GREAT WAR TEN YEARS AGO TODAY

American batteries lay down a heavy barrage in the Champagne sector, east of Rheims. Work of the Yanks recognized by a French official report which refers to the barrage as "very effective support."

Chancellor Von Hertling of Germany will begin German peace debate in the Reichstag Feb. 21. He promises to discuss the Ukraine treaty and the attitude of President Wilson and Lloyd George regarding the war.

payment of France's war debt to our government.

The matter of foreign borrowing raises anew the question of the safety of funds put into the obligations of foreign governments and corporations. In many cases the new bond issues represent an iron-clad first lien against valuable assets or positive incomes which cannot in any way be repudiated, so long as courts are able to function and law and order prevail. But the unsecured pledges of weak governments and poorly-financed industrial corporations are not always worth their face value, the fact of which too many investors appreciated only after the market values of their securities have shrunk almost beyond recognition. It is then too late to call in the finance doctor.

Experience has shown that some of our American banking syndicates are not qualified to put an equitable price on some of the European bond issues they have recently been distributed among investors in the New York market. This is evidenced by the sharp declines in market prices of bonds with the dissolution of the syndicates, and the consequently withdrawal of the artificial support from the bonds in the listed market. The inference is that bonds which cannot stand on their own feet should be left distinctly alone, instead of being scattered among investors who do not know what they are purchasing.

The comparatively high yields on foreign bonds should contain the first warning to investors that these issues are not as desirable from the standpoint of safety as are good American bonds paying half as much interest per year. Safety of principal in the first consideration in bond buying, an elementary principle that many people learn too late.

Ask Parliament Act To Forgive Crimes of Soldiers Dead In War

BIRMINGHAM, Eng., Feb. 14.—(INS.)—A plea that death on the battlefield should be deemed sufficient to expiate any previous offenses, was made here by Sir Henry Maddocks, K. C., the Recorder of Birmingham, when he charged the grand jury at the quarter sessions.

"It is purely a matter of sentiment," Sir Henry declared. "It appeals to me because I think it is only a matter of justice that those who give their lives in the service of the country should be able to expect from us that their transgressions should, so far as humanly possible, be blotted out."

Sir Henry said he believed an Act of Parliament could be passed expiating all crimes convicted by soldiers who died in battle, so that their relatives would then find nothing to discredit on record.

It looks as though Colonel Lindbergh's reported "nervousness" may have been due to his desire to take to flying once more in "The Spirit of St. Louis."—Steu-benville, O., Herald Etar.

Fewer headaches the morning used to be; but more funeral processions the morning after the night before.—Cincinnati, O., Times Star.

IN SOCIETY

MISS ALLISON DELAPLAINE, SOCIETY EDITOR

Auxiliary Meets

Mrs. Ned Thatcher, Central District Chairman of the American Legion Auxiliary, Department of Ohio, was the principal speaker at the regular meeting of the local Unit in the Post Room at Memorial Hall Monday evening when about 35 members of that organization were present.

Mrs. Thatcher brought before them the case of an ex-serviceman who is a patient in the tubercular ward at Government Hospital No. 97 at Chillicothe, and whose ability as a cartoonist is recognized by all who see his work. This man is recovering from his affliction, and Mrs. Thatcher urged the members of the Unit to assist the other generous Units in the Department of Ohio who had already subscribed generously toward a fund to give this man a course in the work for which he is very well fitted.

He will never be able to handle any difficult manual labor, but the work for which he is fitted and in which his ability is recognized, will give him a very remunerative position.

At the conclusion of Mrs. Thatcher's talk the local Unit voted to assist in this work by donating \$20.

The matter of the card party, which is scheduled for April 9, on the Monday following Easter, was discussed but the appointing of committees was left until a later date, as were also the final arrangements. Another matter of importance, which was taken up at the meeting, was the making of poppies for the annual Poppy day sale, which date will also be selected later.

The committee for the evening, consisting of Mrs. Joseph J. Rooney, Mrs. Abram Parrett, Mrs. A. H. Rogers, Mrs. John Goodchild, Mrs. Paul Betts and Mrs. Edwin Grimm served a very delicious lunch in the dining room.

Bible Class Meets

The Young Ladies' Bible Class of the Reformed church at Stoutsville held its monthly meeting on Tuesday evening, Feb. 7, at the home of Miss Blanche Meyers, with the following program:

Opening Hymn—"The Service of the King."

Scripture—Miss Ruth Lovette.

Brief prayers—Mrs. Henry Imbler, Mrs. Virgil Courtright, Miss Elsie Adams and Mrs. N. F. Stout.

Roll call, paying of dues, reading of minutes, business.

Reading—Miss Helen Deeds.

Song—"Sunshine and Shadows."

Constitution—Miss Helen Deeds.

During the social hour, delicious refreshments were served by the hostesses, the Misses Helen Deeds and Blanche Meyers.

At Birthday Party

Mrs. George Burns and daughter, Donna Jean, attended the

birthday dinner in Columbus Tuesday, given at the home of the Rev. D. S. Mills, in honor of his wife's birthday anniversary.

Von Bora Society

The regular monthly business meeting of the Von Bora Society of the Trinity Lutheran Church was held Monday evening at 8:00 o'clock in the social room of the church. After the close of the business, a program was offered, the subject of which was "The Origin and History of Sacred Songs." Under this title, the hymns chosen to be sung and discussed were, "To Our Redeemer's Glorious Name," "My Faith Looks Up To Thee," "Savior Breathe An Evening Blessing," and "Sun of My Soul," which offered a wide variety of examples of the sacred songs. Miss Minnie Mason read the paper on the evening's subject.

These selected songs were sung by the Von Bora Octette, which is composed of Mrs. James Moffitt, Mrs. Will Fitzpatrick, Miss Catherine Mead, Mrs. George Himrod, Miss Vera Walters, Miss Mildred Barthelmas, Miss Ellen Leist and Miss Grace Bowers. Miss Lucile Crist was the chairman of the lunch committee.

Missionary Society to Meet

The Woman's Missionary Society of the Evangelical Church will be entertained at the home of Mrs. J. H. Lutz, on West Ohio Street, next Thursday evening at 7:30 o'clock. A good attendance is desired.

Child League Circle

The Child Conservation League Circle will meet Wednesday afternoon at 2:30 o'clock at the home of Mrs. C. R. Barnhart, on Montclair Avenue.

The subject for discussion will be "Anger," first, its disastrous reaction upon the nervous system and destruction of mental poise, and second, "Exhibition of anger between parents and the evil effects upon the child." All members are urged to be present.

Conduct Contest

Mrs. Toensmeier's Bible Class of the Presbyterian Church is holding a contest. Attendance counts two points, promptness counts one, reading the lesson before coming to class counts two points, and bringing a new member counts five. The class is divided into two divisions and after the length of time, the side that has the least number of points will entertain the other to a feast at the church. Miss Florence Dunton is the leader of one side, and Miss Ruth Steele, the other.

Mrs. Grant's Club

Mrs. Harold Grant was hostess to the members of her bridge club, Monday evening at her home on South Scioto Street.

To Entertain Club

The members of Mrs. Mary Krimmel's bridge club will meet at her home Tuesday evening.

Speaks Before Class

The Rev. Franklin McElfresh of the Methodist Church spoke before the members of Mrs. Carl Ritz' Bible Class Tuesday afternoon in the Monday club room at the Memorial Hall. The subject he chose was, "Jeremiah."

For Daughters' Pleasure

Mrs. Merton Westenhaver entertained with a Valentine party Saturday afternoon for the pleasure of her four little girls, Helen, Eleanor, Mary and Marjorie. The decorations were red hearts, used throughout the house, and the afternoon was spent in playing bridge and other games.

The prizes were won by Sarah Steinhauer, Mary Louise Berry, and McSilla Davis, and each guest received valentine favors. The out-of-town guests were Miss Ruth and Miss Ruby Dunkle, of Ashville, and Miss Marjorie Dunkle, of Canal Winchester.

Honors Daughters' Birthday

Mrs. Robert Denman, of Watt street entertained twenty-four little girls Monday afternoon in honor of her daughter Ann's birthday. They spent a very enjoyable afternoon playing games, in which Jean Cryder, Jane Littleton and

Ruth Eccard were successful in carrying off the prizes.

The girls who were present were Agnes Dinsmore, Josephine Eccard, Ruth Eccard, Jean Cryder, Jane Littleton, Evaline Wolf, Marvene Wallace, Ruth Dunlap, Mary Ellen Byers, Rose Mary Hammel, Dorothy Fohl, Margerie Leach, Virginia Cartright, Eleanor Miller, Bernice Liston, Mary Alice Griner, Ann Vierbome, Anna Frye, Ann Reichelderfer, Esther Young, Margaret Butler, Marjory Mader, Mrs. Denman was assisted by Miss Vera Walters, Mrs. Louis Culp and Mrs. Walter Denman.

MANY ENTERED IN HUGE DRIVE OF THE HERALD

(Continued from Page One)

bring or telephone the name of some hustler among your friends and acquaintances whom you would like to see win—we will do the rest. Opportunity comes but once in this world, and it is most certainly knocking at the door of our good people right now. This big campaign is a wonderful opportunity and before the names are printed many nominations will have been made from the hustlers and their friends.

If you have a lodge, church or society, let your fellow members know you are in the race and solicit their aid. It pays to advertise, and by advertising the fact that you are in the race you will be helping to roll together several thousand votes for the finish.

Don't wait for your friends to bring their subscriptions to you, but go to them. Show them you have the hustling ability and really want to win and that you want their subscriptions for the Herald and Union Herald for a year or more—that is the way to pile up the votes.

Don't let a single day pass without making an appreciable gain by landing four or more subscriptions. If this average is kept up for the week, you will see that several hundred thousand votes can be secured each week and votes alone will win the prizes. Success is the reward of persistency. If you get discouraged easily you are licked before you start. It's the fighter who wins in any competition.

Read the campaign story daily in the paper; the manager often has many tips for the various candidates which will be given in the paper. Come to the Herald office often, keep in close touch with the situation, and success can be attained.

Decide at once that you are going to become the owner of one of the big prizes, then clip the nomination blank and the 100 vote ballot found in Saturday's issue, fill out with your name and address plainly, and either bring it or send it in to the campaign manager at the Herald office. Get a receipt book and full particulars of how to win, then get right out among your friends and secure new subscribers and renewals. Remember that while the idea of the campaign is to secure new subscribers, and while more votes are given for new subscribers, yet a liberal number of votes is given for renewals. All you have to do is to see them and collect their subscriptions, either new or old; give them a receipt for their money and once every week send or bring the subscriptions to this office and votes will be issued for same.

In case you can not come personally to the Herald right away phone or write the campaign manager and he will either send or bring the necessary working materials and full particulars to you at once.

EMIL JANNINGS IS SUPERB IN PICTURE

Noted German Actor Does Fine Character Work in "The Way of All Flesh."

Convincing proof that a great motion picture need not necessarily be an epic in number of people used or the size of sets, is to be found in the Metropolitan Theater where Emil Jannings' first Paramount starring vehicle "The Way of All Flesh" is now showing.

Here is the foremost motion picture actor of the world today in one of the most dramatically human, vital and gripping pictures the screen has ever shown.

"The Way of All Flesh" is a saga of sacrifice, the coming of temptation in the life of a simple, home loving man, a powerful sermon on the frailty of mankind. To see "The Way of All Flesh" with Jannings as the man who slow himself in the eyes of the world that his family might be spared shame, is to experience a flood of cleansing, thought-provoking emotions. There are laughs and tears; moments when the character seems to fairly speak aloud.

By no means is Jannings alone in this drama. Belle Bennett, Phyllis Haver, Donald Keith, Fred Kohler and the many others are in the supporting cast.

HEALTH NURSE HERE PRESENTS WORK REPORT

(Continued from Page One)

other organizations for their help in this work. Gratitude is also expressed by the public health nurse to the senders of two let letters, each signed, "A Friend" and each containing \$10 for the aid of worthy families.

Miss Phelps also desires to thank other contributors to the work and especially those who made donations when the Smith home was burned.

Employment Agency

The office of Miss Phelps is an employment agency, social service center, city directory and a first aid station. It receives calls for practically everything from food to garden tools.

Field workers from the state departments of Child Welfare, Health and Civilian Rehabilitation have called upon Miss Phelps in the interest of their mutual work.

Miss Phelps asks that all persons desiring to report a case of any kind to sign their names as all communications are held confidential and no attention is paid to any report signed "Neighbor" or "Friend."

Appreciation is voiced by Miss Phelps given to her department by Ex-mayor George Fitzpatrick and Lewis Schneider, former health officer.

Cases Total 10,222

A review of the work done by Miss Phelps the past year shows that 10,222 cases received attention from her office. They are listed as follows:

Maternity cases, 55; surgical case, 16; babies under 3 years, 68; medical cases, 129; pre-school children, 9; people for bedding and clothing, 40; patients referred to hospitals, 10; new patients, 251; old patients readmitted, 73; total number of patients, 339; total number discharged, 315; number of patients Feb. 1, 1928, 24; deaths from all causes, 15; number of stillborn babies, 1; nursing and instructive visits, 2,804; school calls, 205; weighing and measuring school children four times the term, 6,665.

NEARLY MAKES RECORD

NEW YORK, Feb. 14—(INS)—Four-fifths of a second was all that stood today between Lloyd Hahn and his fifth world record. At the Elks interscholastic meet last night, the great American middle distance runner almost equalled the mark of 2:43 3-5 made by Jimmy Connelly five years ago for two-thirds of a mile.

Mrs. Burton Advises Women on Motherhood and Companionship

"For several years I was denied the blessing of motherhood," writes Mrs. Margaret Burton of Kansas City. "I was terribly nervous and subject to periods of terrible suffering and melancholia. Now I am the proud mother of a beautiful little daughter and a true companion and inspiration to my husband. I believe hundreds of other women would like to know the secret of my happiness, and I will gladly reveal it to any married woman who will write me." Mrs. Burton offers her advice entirely without charge. She has nothing to sell. Letters should be addressed to Mrs. Margaret Burton, 8789 Massachusetts, Kansas City, Mo. Correspondence will be strictly confidential.

EXCLUSIVE PHOTOS OF DOOMED WOMAN

Here are three hitherto unpublished portraits of Mrs. Jewell (Julia) Palmer McDonald, the Mount Vernon, N. Y., girl, who has been sentenced to die on the gallows with her husband, George, in Quebec, on March 23 for the murder of a taxicab driver. Friends of the doomed ex-cabaret dancer are rallying to save her from the noose. Mrs. McDonald has expressed herself as not wishing to be saved if her husband should have to "carry on" and die alone.

TRIAL MOVES SLOWLY; END NOT IN SIGHT

(Continued from Page One)

went to bed first and that he followed about 10 o'clock after Lowe had called at the house to learn if "Brownie" was hurt. Whittington said Flint was not wearing a sheepskin coat that night.

Miss Lavina Whittington asserted that Flint did not leave the Byrd house all that evening and that he had stayed and talked with her during the absence of her sister and brother. Judge Abernethy, assisting the prosecution, was attacking the character of the witness when court adjourned.

Byrd Testifies

Tuesday morning Charles Byrd took the witness stand, and said that Flint had arrived at his home about 5:42 o'clock the night of Hill's death. Byrd said that he (Byrd) left home shortly after 6 o'clock and returned about 9:30 o'clock. According to Byrd, Mallett told him of the shooting and he called the sheriff, going with the officers to the scene of the shooting.

Ed Lowe, a nephew of Flint, was next called and he said that "Big Easy" Bivens, one of the State's eye witnesses to the shooting frequently became intoxicated and that he and Bivens had often drank together. He testified that they drank rubbing alcohol, canned heat and anything else they could get. Lowe also claimed that Mallett was drunk after the shooting when he accosted Lowe on the

street to tell him about it. Lowe was still on the stand when court adjourned at noon.

PUBLIC SALE!

Opportunity comes but once in this world, and it is most certainly knocking at the door of our good people right now. This big campaign is a wonderful opportunity and before the names are printed many nominations will have been made from the hustlers and their friends.

If you have a lodge, church or society, let your fellow members know you are in the race and solicit their aid. It pays to advertise, and by advertising the fact that you are in the race you will be helping to roll together several thousand votes for the finish.

Don't wait for your friends to bring their subscriptions to you, but go to them. Show them you have the hustling ability and really want to win and that you want their subscriptions for the Herald and Union Herald for a year or more—that is the way to pile up the votes.

Don't let a single day pass without making an appreciable gain by landing four or more subscriptions. If this average is kept up for the week, you will see that several hundred thousand votes can be secured each week and votes alone will win the prizes. Success is the reward of persistence. If you get discouraged easily you are licked before you start. It's the fighter who wins in any competition.

Read the campaign story daily in the paper; the manager often has many tips for the various candidates which will be given in the paper. Come to the Herald office often, keep in close touch with the situation, and success can be attained.

Decide at once that you are going to become the owner of one of the big prizes, then clip the nomination blank and the 100 vote ballot found in Saturday's issue, fill out with your name and address plainly, and either bring it or send it in to the campaign manager at the Herald office. Get a receipt book and full particulars of how to win, then get right out among your friends and secure new subscribers and renewals. Remember that while the idea of the campaign is to secure new subscribers, and while more votes are given for new subscribers, yet a liberal number of votes is given for renewals. All you have to do is to see them and collect their subscriptions, either new or old; give them a receipt for their money and once every week send or bring the subscriptions to this office and votes will be issued for same.

In case you can not come personally to the Herald right away phone or write the campaign manager and he will either send or bring the necessary working materials and full particulars to you at once.

EMIL JANNINGS IS SUPERB IN PICTURE

Noted German Actor Does Fine Character Work in "The Way of All Flesh."

Convincing proof that a great motion picture need not necessarily be an epic in number of people used or the size of sets, is to be found at the Metropolitan Theater where Emil Jannings' first Paramount starring vehicle "The Way of All Flesh" is now showing.

Here is the foremost motion picture actor of the world today in one of the most dramatically human, vital and gripping pictures the screen has ever shown.

"The Way of All Flesh" is a saga of sacrifice, the coming of temptation in the life of a simple, home loving man, a powerful sermon on the frailty of mankind. To see "The Way of All Flesh" with Jannings as the man who slew himself in the eyes of the world that his family might be spared shame, is to experience a flood of cleansing, thought-provoking emotions. There are laughs and tears; moments when the character seems to fairly speak aloud. By no means is Jannings alone in this drama. Belle Bennett, Phyllis Haver, Donald Keith, Fred Kohler and the many others are in the supporting cast.

HEALTH NURSE HERE PRESENTS WORK REPORT

(Continued from Page One)

other organizations for their help in this work. Gratitude is also expressed by the public health nurse to the senders of two health letters, each signed, "A Friend" and each containing \$10 for the aid of worthy families.

Miss Phelps also desires to thank other contributors to the work and especially those who made donations when the Smith home was burned.

Employment Agency The office of Miss Phelps is an employment agency, social service center, city directory and a first aid station. It receives calls for practically everything from food to garden tools.

Field workers from the state departments of Child Welfare, Health and Civilian Rehabilitation have called upon Miss Phelps in the interest of their mutual work.

Miss Phelps asks that all persons desiring to report a case of any kind to sign their names as all communications are held confidential and no attention is paid to any report signed "Neighbor" or "Friend."

Appreciation is voiced by Miss Phelps given to her department by Ex-mayor George Fitzpatrick and Lewis Schneider, former health officer.

Cases Total 10,222 A review of the work done by Miss Phelps the past year shows that 10,222 cases received attention from her office. They are listed as follows:

Maternity cases, 55; surgical case, 16; babies under 3 years, 65; medical cases, 129; pre-school children, 9; people for bedding and clothing, 40; patients referred to hospitals, 8; new patients, 251; old patients readmitted, 73; total number of patients, 339; total number discharged, 315; number of patients Feb. 1, 1928, 24; deaths from all causes, 15; number of stillborn babies, 1; nursing and instructive visits, 2,804; school calls, 205; weighing and measuring school children four times the term, 6,665.

NEARLY MAKES RECORD

NEW YORK, Feb. 14—(INS)—Four-fifths of a second was all that stood today between Lloyd Hahn and his fifth world record. At the Elks interscholastic meet last night, the great American middle distance runner almost equalled the mark of 2:43.3-5 made by Jimmy Connelly five years ago for two-thirds of a mile.

Mrs. Burton Advises Women on Motherhood and Companionship

"For several years I was denied the blessing of motherhood," writes Mrs. Margaret Burton of Kansas City. "I was terribly nervous and subject to periods of terrible suffering and melancholia. Now I am the proud mother of a beautiful little daughter and a true companion and inspiration to my husband. I believe hundreds of other women would like to know the secret of my happiness, and I will gladly reveal it to any married woman who will write me." Mrs. Burton offers her advice entirely without charge. She has nothing to sell. Letters should be addressed to Mrs. Margaret Burton, 3739 Massachusetts, Kansas City, Mo. Correspondence will be strictly confidential.

EXCLUSIVE PHOTOS OF DOOMED WOMAN

Here are three hitherto unpublished portraits of Mrs. Jewell (Julia) Palmer McDonald, the Mount Vernon, N. Y., girl, who has been sentenced to die on the gallows with her husband, George, in Quebec, on March 23 for the murder of a taxicab driver. Friends of the doomed ex-cabaret dancer are rallying to save her from the noose. Mrs. McDonald has expressed herself as not wishing to be saved if her husband should have to "carry on" and die alone.

TRIAL MOVES SLOWLY; END NOT IN SIGHT

(Continued from Page One)

went to bed first and that he followed about 10 o'clock after Lowe had called at the house to learn if "Brownie" was hurt. Whittington said Flint was not wearing a sheepskin coat that night.

Miss Lavina Whittington asserted that Flint did not leave the Byrd house all that evening and that he had stayed and talked with her during the absence of her sister and brother. Judge Abernethy, assisting the prosecution, was attacking the character of the witness when court adjourned.

Byrd Testifies

Tuesday morning Charles Byrd took the witness stand, and said that Flint had arrived at his home about 5:42 o'clock the night of Hill's death. Byrd said that he (Byrd) left home shortly after 6 o'clock and returned about 9:30 o'clock. According to Byrd, Mallett told him of the shooting and he called the sheriff, going with the officers to the scene of the shooting.

Ed Lowe, a nephew of Flint, was next called and he said that "Big Easy" Byrns, one of the State's eye witnesses to the shooting frequently became intoxicated and that he and Byrns had often drank together. He testified that they drank rubbing alcohol, canned heat and anything else they could get. Lowe also claimed that Mallett was drunk after the shooting when he accosted Lowe on the

street to tell him about it. Lowe was still on the stand when court adjourned at noon.

PUBLIC SALE!

As I have reduced my farming, I will sell the following livestock and other personal property at public auction at my farm 6 miles northwest of Frankfort, 3 miles north of Austin and 3 miles southwest of Clarksville on the Clarksville and Austin pike, on

FRIDAY, FEB. 17, 1928

Sale starts at 10 o'clock (Eastern Standard Time.)

31 Head of Horses

One black gelding, 7 years old, 1600; 1 black gelding, 6 years old, 1600; 1 team black geldings, 7 yrs. old, 3000; 1 team gray mares, 7 and 8 yrs. old, 3300. 1 team gray mares, 8 and 9 years old, in foal 3000; 1 bay mare 11 years old, in foal in fall, 1600; 1 sorrel mare, 4 yrs. old, 1500; 1 grey gelding, 9 yrs. old, 1500; 1 grey gelding, 9 yrs. old, 1500; 1 grey gelding, 9 yrs. old, 1500; 1 bay gelding, 6 yrs. old, 1500; 1 red roan gelding, 4 yrs. old, 1500; 1 dark grey team of mares, 2 yrs. old, 1500; 1 dark grey team gelding, 2 yrs. old, 1500; 1 brown colt, 2 yrs. old, 1200; 2 brown colts, 1 year old, 1 brown colt, 2 yrs. old; 4 weanling colts; 1 spotted team Shetland ponies, wt. 1400; Walter Wright by Walter Direct, bay pacing gelding, 8 years old, raced better than 2:09 last season.

4 Milk Cows

One red Shorthorn, 5 yrs. old; 1 red Shorthorn, 6 yrs. old; 1 red Shorthorn, 8 years old; 1 red Shorthorn, 6 yrs. old.

ALL TIME GATE RECORD AHEAD FOR TEX RICKARD

RECEIPTS FOR MONTH TO HIT MILLION MARK

Five Fights And 10 Hockey Games to Place Garden on Big Business Plane.

By DAVIS J. WALSH
I. N. S. Sports Editor

NEW YORK, Feb. 14—According to careful estimates compiled today by the Madison Square Garden corporation, the house of Rickard probably will establish an all-time record for the day to day business of sport promotion by playing to a gross of one million—and I don't mean lettuce and tomato salads—during the month, beginning Feb. 17. Yes, that's what they said: one million (1,000,000) dollars (\$) and really I can't help it if the announcement causes members of the board of the U. S. Steel Corporation to stir fretfully in their sleep.

Frankly, they are entitled to climb aboard the chitto-robe and slay a lot of pink elephants with the contents of an empty cigar box. For this is money as big business knows it.

The "take," as we say in the front office, will come from the promotion of ten hockey matches, five boxing shows and a six-day bicycle race. The latter may be your idea of a mental moratorium, yet the garden looks for it to produce the greatest gate of a great month. The estimate is that the buttonhole makers will leave all of \$300,000 behind them during the week of March 3 to March 10 when the great merry-go-round will be on.

Fights to Produce

Great revenues also are anticipated from the Delaney-Heeneey and Sharkey-Risko fights of March 1 and March 12, respectively. Each has been appraised at \$150,000 in gross returns, in spite of the fact that one principal in each, to wit Sharkey and Heeneey, engaged in a very brutal miss-me-again not so long ago.

The Ace Hudkins-Sammy Baker welterweight fight of Friday night is held as a \$75,000 shot. So is the Sid Terris-Jimmy McLarnin lightweight affair of Feb. 24. Baker and Hudkins, it is understood, are selling right out with the Muggs and Terris and McLarnin should do even better, owing to the former's local following and the latter's national reputation.

Hockey to Contribute

If the events mentioned do what the statisticians think they will, a matter of \$750,000 of he million will be accounted for by exactly five attractions. The ten hockey matches easily might furnish the remainder of the million and, if they don't, the proposed Sekyra-Lomski fight of March 17, will do it and more.

No wonder Mr. T. Rickard is sunning himself at Miami Beach, serene in the face of the fact that his heavyweight elimination is doing slightly too much eliminating. He came back from the Chicago fight with about \$400,000 net after months of preparation and nights of sleepless worry. He can turn his back on the above program and net at least \$600,000.

Last Night's Fights

By International News Service
AT CLEVELAND—Joe Dundee, of Baltimore, world's welterweight champion, scored technical knockout over Clyde Hull, of Clark, S. D. (8). Dundee's title was not at stake.

AT ROCHESTER, N. Y.—Jack Delaney, of Bridgeport, Conn., former light heavyweight champion, scored technical knockout over Indian Leo Gates, North Adams, Mass. (2).

Johnny Urban, Pittsburgh heavyweight, stopped Tony Stabenau, Buffalo (1).

Mike Conroy, Rochester heavyweight, outpointed Gordon Munce, New York (6).

AT LONDON, ENGLAND—Jack Hood, British welterweight champion, outpointed Len Johnson, Manchester, Eng., negro (15).

AT PHILADELPHIA—Al Gordon, Philadelphia, won decision over Joe Glick of New York, leading junior lightweight contender (10).

Henri De Wanker, of France, outpointed Hubert Gillis, of Belgium (10).

Mickey O'Donnell, Buffalo, outpointed Freddie Welsh, Atlantic City, N. J., lightweight (10).

Marty Gold, Philadelphia, won decision over Paddy Sullivan, California flyweight (10).

AT NEW BEDFORD, MASS.—Bobby Brown, Philadelphia, stopped Al Settle, Jersey City light heavyweight (5).

AT NEW YORK—Willie Harmon, New York welterweight, out-

SPORTSMATTER

BY FRANK GETTY

Man's craving for speed warrants attention to the tests conducted this week on Daytona Beach, where the fastest things on wheels are being raced in a quest for new world's records.

It will be low tide during daylight hours, and the world's speediest motor cars will go roaring down the smooth sand in well-nigh unbelievable times.

The races, with one exception, will be against time rather than among cars, for it is sufficiently dangerous to have one automobile careening along a straightaway at three times a minute without introducing one or more others into the picture.

When these 200 mile per hour babies get started, everyone wants to keep a long way away. It frequently happens that the driver loses consciousness because of the dizzy pace, which makes it risky for him as well as for anyone else in the vicinity.

The present world's automobile speed record, it will be recalled, is held by Major H. O. D. Seagrave, who traveled 203.79 miles per hour to establish it. The major is an Englishman, so this is one speed record not held by the United States, and part of the idea of this week's show at Daytona Beach is to try to bring the record back to this country.

Frank Lockhart and J. M. White are the American entrants. The former will pilot a small car, designed for minimum wind resistance. It has a high cylinder turnover and theoretically is capable of 210 miles per hour.

White's car is a fearsome affair, weight 8,000 pounds, equipped with three airplane motors. One of these motors is in front of the driver's seat and two are side by side in the rear.

While each of the motors has a rated maximum of slightly less than 500 horsepower, White has tuned them up to more than 3,000 revolutions per minute without load.

Should one of the Americans succeed in breaking Major Seagrave's record, there will be present an English driver, prepared to save the mark for England.

Captain Malcolm Campbell of London has entered his Bluebird, fitted with a Napier aero motor capable of delivering something like 1,000 horsepower. The Bluebird is a stream line racer, designed to overcome the effects of unfavorable aerostatic conditions when proceeding at high speed.

Theoretically, all these cars can do better than 203.79 miles per hour, but things have a way of happening to high-powered racing automobiles.

The time trials will be held over a nine-mile stretch, permitting four miles for the cars to get going, one mile to run over the electrically timed course. The remaining four miles are required to stop the darn things.

Delaney's Punch and 3 Knockouts Bring Him Back As Contender

NEW YORK, Feb. 14—(INS)—

Give a man a punch—and I don't mean on the nose but in the hand—and you can guarantee to make of him, overnight, the least logical of all contenders in the division of the heavyweight boxing. This may not have been so in the days of yore when men were hit but it can't miss today. It is the sole reason that Jack Dempsey, aged and tottering though he may be, remains stand-out heavyweight contender, regardless of whether he cares to contend or not.

And, by the same token, it leaves Jack Delaney sitting in behind the dealer in the Sharkey-Heeneey-Delaney-Risko elimination stakes in March. Do you think, for example, that Sharkey will knock out Risko or vice versa? Neither do we. Do you suppose Jack Delaney might stop Heeneey? He very naturally might. Heeneey is easy to hit and Delaney has the punch. Viola! One first class contender!

Others Outsmarted

It seems to me that the Delaney camp has out-smarted the others in picking its spot in the eliminations. Sharkey, for example, didn't want any part of Risko but had to take him. The latter is tough and Sharkey merely is a fair hitter. The result should be fifteen uninspiring rounds, regardless of who wins. The old knockout, the greatest "convincer" in boxing, doesn't figure to lend its more or less artificial aid to the occasion.

It was the lack of anything even suggesting a knockout that made the recent Sharkey-Heeneey bout almost a double elimination. Neither exhibited the all-necessary punch. But Delaney has it and Heeneey has a rather accommodating lack of defense. Voila, as we remarked before. It wouldn't be at all astonishing if Delaney emerged from the general excitement as the biggest figure of the quartet.

Anything, in fact, is possible with a man like that. He was passe and discredited a few months ago. Today, he is very much in the portrait. Why? The punch again.

It doesn't make much difference to the buttonhole makers who the punchee may have been. All they want to know is who did the hitting and in what round did they bear the remains tenderly out. Delaney has been rebuilt by virtue of knockouts over three

pointed Canada Lee, New York negro (6).

Benny Hall, St. Louis, drew with Pete Sanstol, Norwegian bantam (6).

Danny Frush, veteran English fighter, outpointed Jimmy Scott, Galveston, Texas lightweight (6).

Danny Terris, brother of Sid Terris, outpointed Oxford Bernard, New York (6).

AT ALTOONA, PA.—Al Corbett, Cleveland featherweight, kayoed Johnny Nelson, Newark, J. (9).

AT BUFFALO—Freddie Mueller, Buffalo lightweight, won decision over Phil Golstein, New York (10).

PLENTY ACTION PREDICTED FOR BOUTS AT GYM

Johnny Carpenter Expects Defeat of Moran By Knockout, Wednesday Night.

Johnny Carpenter, the knockout king, and commonly known as "The assassin" meets Eddie Moran of Lexington, Ky., Ohio River's Best in a ten round feature bout to be held Wednesday night at the C. A. C. gym.

Carpenter, the lad with a sock, expects to win via the knockout route but Moran is also confident that he will win and has a very impressive record. Both are anxious for the gong as they have never been matched before. Carpenter has knocked out Frankie Buff, Brick Ryan, Rustic Russel, Don Burchard, Micky Dugan, Red Wise, Johnny Richie, Sunny Jim, Micky Shannon, Al Zainey and Little Six, in addition to fifteen other well-known fighters.

O'Reilly on Card

In the semi-final which will be six rounds to a decision Mickey O'Reilly, of this city, ties up with Russ Elliot, well known Columbus fighter. It will be remembered that O'Reilly has a fine reputation, having recently won a main go in Washington C. H. Elliot intends to drop O'Reilly in the first round but Mickey thinks otherwise. O'Reilly has been working out in the Army for the last two weeks and is now in tiptop shape. Barring accidents it should be one grand fight.

Enough cannot be said for the preliminaries which will be four rounds each to a decision. Among

Dr. Peltzer Says Other Nations Will Follow America At Olympics

By DAVIS J. WALSH

NEW YORK, Feb. 14—(INS)—Dire predictions by Lawson Robertson and others concerning the terrible ordeal the United States must experience in the Olympic games at Amsterdam this summer are just a well bred, Teutonic laugh to Dr. Otto Peltzer, the man with a pair of legs. The Herr Doktor says there isn't a country in the world that has a chance to head America, regardless of their Nurnis, Ritolas, Wides, Lowes and Martins.

So much for 1928. He feels that

these and heading the list is Sailor Marshall, the fighting gub, who meets Ned Renick, of Columbus, Marshall hails from Scranton, Pa., and learned the box in the navy, having joined it when he was 15. He challenges anyone his weight and bars none. Renick has fought four times in St. Louis and is in the pink of condition. He has a terrific right.

In the other prelim. Frankie Donohoe, the Circleville Flash and the boy that slings a haymaker, meets Roscoe Wallace, a product of Kinderhook. Both have been training hard and plenty of leather should fly when they hook up.

To Appoint Judges

The judges will be appointed by the Boxing commission. Tickets are on sale at Mykrantz, the Palace, the Mecca and Hamilton and Ryan.

The card is promoted by Hussey and Snider and is sponsored by the Sunshine Athletic club. The fighters will arrive in Circleville at 3 o'clock Wednesday and will immediately be taken to the office of Dr. Holman where they will be examined and weighed in. Carpenter and Moran are not to exceed a weight of 133 pounds.

such the same condition will prevail at Los Angeles in 1932 but he has hopes for Germany in 1936 and by the time 1940 is on the calendar. Sehr gut! America will do well to watch Germany then.

"We know we haven't a chance with America's great team this year," says the Herr Doktor. "So does Finland, France, England and other leading nations. You have too many athletes for us and they are far too good."

General Excellence

"Germany, for example, can give you a good fight in certain events, with an equal chance of beating you in them. But your excellence throughout the entire program simply will overwhelm the other nations in the end. For our part, we will be highly elated if we finish second. The fight for that position between Finland, France, England and ourselves will be very keen, much more so, in fact, than will be the competition for first place. America right now is too much for the European nations and we know it."

"Germany's athletic rehabilitation since the war has been remarkable. We still are intensely interested in the arts and sciences, but the patriotism that formerly went into military life now is being devoted to sports. The latter have come to be considered a patriotic duty. It was this inspiration that caused me to take up running."

"America has no idea of the vastness of our athletic system nor the zeal with which we enter into it. However, it is just beginning to show results. We don't expect to be ready for our supreme try by 1932 but four years later America will have a real fight on its hands. And by 1940! It is a long time to wait but Ger-

MYRICK TO RETIRE AS TENNIS HEAD

NEW YORK, Feb. 14—(INS)

Bernon S. Prentice, president of the Sea Bright, N. J., Lawn Tennis and Cricket club; Richard Norris Williams, former International star; and Charles S. Garland, former Davis cup player, were mentioned today as logical choices for the chairmanship of the Davis cup committee. Julian S. Myrick, present chairman, announced here last night that he had decided to retire and would not accept a re-appointment to the post.

many is patient. We will have a real contender then."

Peltzer Popular

The Doktor to date has proved to be the most popular athletic importation to run here since the days of Alf Scrubb. Far more human than Nurni, he appeals to crowd instinct because he looks as though he was enjoying the situation hugely. This has served to give the stands the impression that he tactfully is one of them and, therefore, wholly infallibility and that state, however laudable, was never a very appealing one. The average fan, far from perfect himself, soon comes to resent the chronic suggestion of perfection. Kolemnaigen, in his day was much like Nurni while Paulen and Wide were without particular personality.

Charley Hoff had more than enough and, at first the crowd was with him to a man. Finally, however, he became a bit too theatrical for the average taste. Peltzer, of course, might fall into the same error but this is not likely.

For one thing, his American appearances are too few for him to develop excess temperament. For another, the Doktor's horse sense probably is too great.

Japan To Take Part In Winter Sport Held At St. Moritz Shortly

ST. MORITZ, Switzerland, Feb. 13—(INS)— That the Swiss are making heroic efforts toward the Second Olympic Winter games is shown not only by the fact that the Olympic committee reports \$30,000 spent for preparations but also the fact that the Swiss ski jumpers have recently broken local records on the new "Olympia Leap" during training for the games.

Sixty-three meters were made during the training period several days ago under very poor conditions in soft snow during a heavy storm.

Bruno Tajani, one of Switzerland's hopes for the "big leap" in training at Ponteresia, was reported to have made seventy-two meters on the Bernina Jump.

Experts pronounce the "Olympia Leap," which will be used for the Olympic competition, one of the best ski jumps ever built.

RECEIPTS FOR MONTH TO HIT MILLION MARK

Five Fights And 10 Hockey Games to Place Garden on Big Business Plane.

By DAVIS J. WALSH
I. N. S. Sports Editor

NEW YORK, Feb. 14.—According to careful estimates compiled today by the Madison Square Garden corporation, the house of Rickard probably will establish an all-time record for the day to day business of sport promotion by playing to a gross of one million—and I don't mean lettuce and tomato salads—during the month, beginning Feb. 17. Yes, that's what they said: one million (1,000,000) dollars (\$) and really I can't help it if the announcement causes members of the board of the U. S. Steel Corporation to stir fretfully in their sleep.

Frankly, they are entitled to climb aboard the chiffo-robe and slay a lot of pink elephants with the contents of an empty cigar box. For this is money as big business knows it.

The "take," as we say in the front office, will come from the promotion of ten hockey matches, five boxing shows and a six-day bicycle race. The latter may be your idea of a mental moratorium, yet the garden looks for it to produce the greatest gate of a great month. The estimate is that the buttonhole makers will leave all of \$500,000 behind them during the week of March 3 to March 10 when the great merry-go-round will be on.

Fights to Produce

Great revenues also are anticipated from the Delaney-Heeney and Sharkey-Risiko fights of March 1 and March 12, respectively. Each has been appraised at \$150,000 in gross returns, in spite of the fact that one principal in each, to wit Sharkey and Heeney, engaged in a very brutal miss-me-again not so long ago.

The Ace Hudkins-Sammy Baker welterweight fight of Friday night is held as a \$75,000 shot. So is the Sid Terris-Jimmy McLarin lightweight affair of Feb. 24. Baker and Hudkins, it is understood, are selling right out with the Muggs and Terris and McLarin should do even better, owing to the former's local following and the latter's national reputation.

Hockey to Contribute

If the events mentioned do what the statisticians think they will, a matter of \$750,000 of he million will be accounted for by exactly five attractions. The ten hockey matches easily might furnish the remainder of the million and, if they don't, the proposed Sekyra-Lomski fight of March 17, will do it and more.

No wonder Mr. T. Rickard is sunning himself at Miami Beach, serene in the face of the fact that his heavyweight elimination is doing slightly too much eliminating. He came back from the Chicago fight with about \$400,000 net after months of preparation and nights of sleepless worry. He can turn his back on the above program and net at least \$600,000.

Last Night's Fights

By International News Service

AT CLEVELAND—Joe Dundee, of Baltimore, world's welterweight champion, scored technical knockout over Clyde Hull, of Clark, S. D. (8). Dundee's title was not at stake.

AT ROCHESTER, N. Y.—Jack Delaney, of Bridgeport, Conn., former light heavyweight champion, scored technical knockout over Indian Leo Gates, North Adams, Mass. (2).

Johnny Urban, Pittsburgh heavyweight, stopped Tony Stabenau, Buffalo (1).

Mike Conroy, Rochester heavyweight, outpointed Gordon Munce, New York (6).

AT LONDON, ENGLAND—Jack Hood, British welterweight champion, outpointed Len Johnson, Manchester, Eng., negro (15).

AT PHILADELPHIA—Al Gordon, Philadelphia, won decision over Joe Glick of New York, leading junior lightweight contender (10).

Henri De Wanker, of France, outpointed Hubert Gillis, of Belgium (10).

Mickey O'Donnell, Buffalo outpointed Freddie Welsh, Atlantic City, N. J., lightweight (10).

Marty Gold, Philadelphia, won decision over Paddy Sullivan, California flyweight (10).

AT NEW BEDFORD, MASS.—Bobby Brown, Philadelphia, stopped Al Settle, Jersey City light heavyweight (5).

AT NEW YORK—Willie Harmon, New York welterweight, out-

SPORTSMATTER

BY FRANK GETTY

Man's craving for speed warrants attention to the tests conducted this week on Daytona Beach, where the fastest things on wheels are being raced in a quest for new world's records.

It will be low tide during daylight hours, and the world's speediest motor cars will go roaring down the smooth sand in well-nigh unbelievable times.

The races, with one exception, will be against time rather than among cars, for it is sufficiently dangerous to have one automobile careening along a straightaway at three times a minute without introducing one or more others into the picture.

When these 200 mile per hour babies get started, everyone wants to keep a long way away. It frequently happens that the driver loses consciousness because of the dizzy pace, which makes it risky for him as well as for anyone else in the vicinity.

The present world's automobile speed record, it will be recalled, is held by Major H. O. D. Seagrave, who traveled 203.79 miles per hour to establish it. The major is an Englishman, so this is one speed record not held by the United States, and part of the idea of this week's show at Daytona Beach is to try to bring the record back to this country.

Frank Lockhart and J. M. White are the American entrants. The former will pilot a small car, designed for minimum wind resistance. It has a high cylinder turnover and theoretically is capable of 210 miles per hour.

White's car is a fearsome affair, weight 8,000 pounds, equipped with three airplane motors. One of these motors is in front of the driver's seat and two are side by side in the rear.

While each of the motors has a rated maximum of slightly less than 500 horsepower, White has tuned them up to more than 3,000 revolutions per minute without load.

Should one of the Americans succeed in breaking Major Seagrave's record, there will be present an English driver, prepared to save the mark for England.

Captain Malcolm Campbell of London has entered his Bluebird, fitted with a Napier aero motor capable of delivering something like 1,000 horsepower. The Bluebird is a stream line racer, designed to overcome the effects of unfavorable aerostatic conditions when proceeding at high speed.

Theoretically, all these cars can do better than 203.79 miles per hour, but things have a way of happening to high-powered racing automobiles.

The time trials will be held over a nine-mile stretch, permitting four miles for the cars to get going, one mile to run over the electrically timed course. The remaining four miles are required to stop the darn things.

Delaney's Punch and 3 Knockouts Bring Him Back As Contender

NEW YORK, Feb. 14 — (INS) —

Give a man a punch—and I don't mean on the nose but in the hand—and you can guarantee to make of him, overnight, the least illogical of all contenders in the division of the heavyweight boxing. This may not have been so in the days of yore when men were hitters but it can't miss today. It is the sole reason that Jack Dempsey, aged and tottering though he may be, remains stand-out heavyweight contender, regardless of whether he cares to contend or not.

And, by the same token, it leaves Jack Delaney sitting in behind the dealer in the Sharkey-Heeney-Delaney-Risiko elimination stakes in March. Do you think, for example, that Sharkey will knock out Risiko or vice versa? Neither do we. Do you suppose Jack Delaney might stop Heeney? He very naturally might. Heeney is easy to hit and Delaney has the punch. Viola! One first class contender!

Others Outsmarted

It seems to me that the Delaney camp has out-smarted the others in picking its spot in the eliminations. Sharkey, for example, didn't want any part of Risiko but had to take him. The latter is tough and Sharkey merely is a fair hitter. The result should be fifteen uninspiring rounds, regardless of who wins. The old knockout, the greatest "convincer" in boxing, doesn't figure to lend its more or less artificial aid to the occasion.

It was the lack of anything even suggesting a knockout that made the recent Sharkey-Heeney bout almost a double elimination. Neither exhibited the all-necessary punch. But Delaney has it and Heeney has a rather accommodating lack of defense. Volia, as we remarked before. It wouldn't be at all astonishing if Delaney emerged from the general excitement as the biggest figure of the quartet.

Anything, in fact, is possible with a man like that. He was passe and discredited a few months ago. Today, he is very much in the portrait. Why? The punch again. It doesn't make much difference to the buttonhole makers who the punchee may have been. All they want to know it who did the hitting and in what round did they bear the remains tenderly out. Delaney has been rebuilt by virtue of knockouts over three

pointed Canada Lee, New York negro (6).

Benny Hall, St. Louis, drew with Pete Sanstol, Norwegian bantam (6).

Danny Frush, veteran English fighter, outpointed Jimmy Scott, Galveston, Texas lightweight (6).

Danny Terris, brother of Sid Terris, outpointed Oxford Bernard, New York (6).

AT ALTOONA, PA.—Al Corbett, Cleveland featherweight, kayoed Johnny Nelson, Newark, J. (9).

AT BUFFALO—Freddie Mueller, Buffalo lightweight, won decision over Phil Golstein, New York (10).

PLENTY ACTION PREDICTED FOR BOUTS AT GYM

Johnny Carpenter Expects Defeat of Moran By Knock-out, Wednesday Night.

Johnny Carpenter, the knockout king, and commonly known as "The assassin" meets Eddie Moran of Lexington, Ky., Ohio River's Best in a ten round feature bout to be held Wednesday night at the C. A. C. gym.

Carpenter, the lad with a sock, expects to win via the knockout route but Moran is also confident that he will win and has a very impressive record. Both are anxious for the gong as they have never been matched before. Carpenter has knocked out Frankie Buff, Brick Ryan, Rustic Russel, Don Burchard, Micky Dugan, Red Wicky, Johnny Richie, Sunny Jim, Micky Shannon, Al Zainey and Little Six, in addition to fifteen other well-known fighters.

O'Reilly on Card

In the semi-final which will be six rounds to a decision Mickey O'Reilly, of this city, ties up with Russ Elliot, well known Columbus fighter. It will be remembered that O'Reilly has a fine reputation, having recently won a main go in Washington C. H. Elliot intends to drop O'Reilly in the first round but Mickey thinks otherwise. O'Reilly has been working out in the Armory for the last two weeks and is now in tiptop shape. Barring accidents it should be one grand fight.

Enough cannot be said for the preliminaries which will be four rounds each to a decision. Among

Dr. Peltzer Says Other Nations Will Follow America At Olympics

By DAVIS J. WALSH

NEW YORK, Feb. 14.—(INS)—Dire predictions by Lawson Robertson and others concerning the terrible ordeal the United States must experience in the Olympic games at Amsterdam this summer are just a well bred, Teutonic laugh to Dr. Otto Peltzer, the man with a pair of legs. The Herr Doktor says there isn't a country in the world that has a chance to head America, regardless of their Nurmis, Ritolas, Wides, Lowes and Martins.

So much for 1928. He feels that

these and heading the list is Sail-or Marshall, the fighting gob, who meets Ned Renick, of Columbus. Marshall hails from Scranton, Pa., and learned the box in the navy, having joined it when he was 15. He challenges anyone his weight and bars none. Renick has fought four times in St. Louis and is in the pink of condition. He has a terrific right.

In the other prelim. Frankie Donohoe, the Circleville Flash and the boy that slings a haymaker, meets Roscoe Wallace, a product of Kinderhook. Both have been training hard and plenty of leather should fly when they hook up.

To Appoint Judges

The judges will be appointed by the Boxing commission.

Tickets are on sale at Mykrantz, the Palace, the Mecca and Hamilton and Ryan.

The card is promoted by Hussey and Snider and is sponsored by the Sunshine Athletic club.

The fighters will arrive in Circleville at 3 o'clock Wednesday and will immediately be taken to the office of Dr. Holman where they will be examined and weighed in. Carpenter and Moran are not to exceed a weight of 133 pounds.

such the same condition will prevail at Los Angeles in 1932 but he has hopes for Germany in 1936 and by the time 1940 is on the calendar. Sehr gut! America will do well to watch Germany then.

"We know we haven't a chance with America's great team this year," says the Herr Doktor. "So does Finland, France, England and other leading nations. You have too many athletes for us and they are far too good."

General Excellence

"Germany, for example, can give you a good fight in certain events, with an equal chance of beating you in them. But your excellence throughout the entire program simply will overwhelm the other nations in the end. For our part, we will be highly elated if we finish second. The fight for that position between Finland, France, England and ourselves will be very keen, much more so, in fact, than will be the competition for first place. America right now is too much for the European nations and we know it."

"Germany's athletic rehabilitation since the war has been remarkable. We still are intensely interested in the arts and sciences, but the patriotism that formerly went into military life now is being devoted to sports. The latter have come to be considered a patriotic duty. It was this inspiration that caused me to take up running."

"America has no idea of the vastness of our athletic system nor the zeal with which we enter into it. However, it is just beginning to show results. We don't expect to be ready for our supreme try by 1932 but four years later America will have a real fight on its hands. And by 1940! It is a long time to wait but Ger-

MYRICK TO RETIRE AS TENNIS HEAD

NEW YORK, Feb. 14.—(INS) Bernon S. Prentice, president of the Sea Bright, N. J., Lawn Tennis and Cricket club; Richard Norris Williams, former International star; and Charles S. Garland, former Davis cup player, were mentioned today as logical choices for the chairmanship of the Davis cup committee. Julian S. Myrick, present chairman, announced here last night that he had decided to retire and would not accept a re-appointment to the post.

many is patient. We will have a real contender then."

Peltzer Popular

The Doktor to date has proved to be the most popular athletic importation to run here since the days of Alf Scrubb. Far more human than Nurmi, he appeals to crowd instinct because he looks as though he was enjoying the situation hugely. This has served to give the stands the impression that he tactfully is one of them and, therefore, wholly infallible and that state, however laudable, was never a very appealing one. The average fan, far from perfect himself, soon comes to resent the chronic suggestion of perfection.

Kolemmaigen, in his day was much like Nurmi while Paulen and Wide were without particular personality.

Charley Hoff had more than enough and, at first the crowd was with him to a man. Finally, however, he became a bit too theatrical for the average taste. Peltzer, of course, might fall into the same error but this is not likely.

For one thing, his American appearances are too few for him to develop excess temperament. For another, the Doktor's horse sense probably is too great.

Japan To Take Part In Winter Sport Held At St. Moritz Shortly

ST. MORITZ, Switzerland, Feb. 13.—(INS)—That the Swiss are making heroic efforts toward the Second Olympic Winter games is shown not only by the fact that the Olympic committee reports \$30,000 spent for preparations but also the fact that the Swiss ski jumpers have recently broken local records on the new "Olympia Leap" during training for the games.

Sixty-three meters were made during the training period several days ago under very poor conditions in soft snow during a heavy storm.

Bruno Tajani, one of Switzerland's hopes for the "big leap" in training at Ponteresia, was reported to have made seventy-two meters on the Bernina Jump.

Experts pronounce the "Olympia Leap," which will be used for the Olympic competition, one of the best ski jumps ever built.

HOG PRICES TO STAY LOW UNTIL AUTUMN

Industry Passing Through Low Price Period of Price Cycle, Say Experts.

Hog prices will remain low until next fall or winter, in the opinion of agricultural economists on the staff of the United States Department of Agriculture, in connection with a general forecast of agricultural prospects for 1928.

"The swine industry," says the forecast, "is passing through the low period of a hog price cycle as a result of expansion on production, stimulated by the high hog prices and the favorable relation between corn and hog prices prevailing in 1925 and 1926. With an increase of 6 to 8 per cent in pigs raised in 1927 over those raised in 1926, no reduction in seasonal hog supplies for slaughter is indicated until next fall and winter."

"While some improvement in domestic demand for hog products is anticipated, information regarding European hog production indicates that export demand during the greater part of 1928, will be even lower than in 1927. With supply and demand conditions as indicated, no material change in hog prices other than average seasonal fluctuations, seems likely until next fall and winter when market supplies probably will be affected by curtailed production resulting from the present unsatisfactory price situation."

The killing of three persons by the explosion of a still at Ravenna goes to show that it was consistent to the end.—Canton, O. Repository.

SHERIFF'S SALE OF CHATEL PROPERTY

COURT OF COMMON PLEAS, PICKAWAY COUNTY, OHIO.

Plaintiff.

Case No. 8385.

Milton Graves, et al. Defendants.

In pursuance of an Execution issued from the Clerk's office of the Court of Common Pleas of said County on the 9th day of February, 1928, and to me directed in the above entitled action, I will expose to sale at Public Auction, on the premises of Milton Graves, et al., in the Township of Monroe, Pickaway County, Ohio, on Monday, the 27th day of Feb. 1928, at 2 o'clock P. M., of said day, the following Goods and Chattels, to-wit:

The chattel property of the within named Milton Graves situated in Monroe Township, Pickaway County, Ohio, to-wit: One mare, 10 years old weight 1700 pounds, one gelding name Frank, 8 years old weight 1600 pounds; one gelding name Barney, 11 years old weight 1500 pounds, and one gelding named 1500 pounds, and one colt, 2 years old weight about 800 pounds, one Jersey cow 9 years old, one Jersey cow 3 years old, one International tractor, 8x16, old, one tractor plow, one Power motor, one Oliver sulky plow, one John Deere cultivator, one single row cultivator, one Zanesville double disc, one Hoosier 8-10 drill, one steel drag, one Troy wagon and ladders, one wagon and bed, one beeping binder, 8 ft. cut, one steel Smiley drag, 12 sides of work bar, one big water tank, one John Deere corn planter, one gravel bed, one grindstone, one feed sled, one Ford 1923 sedan.

Terms of Sale:—CASH.

Taken as the property of Milton Graves et al. to satisfy an execution in favor of George Young.

PRANK DAVIS, Sheriff of Pickaway County, O. C. A. Weldon, Attorney. 59-10t.

NOTICE TO DITCH CONTRACTORS

Sealed proposals for furnishing all materials along the ditch bank and constructing the improvement of the Grubel Single Course Ditch, located in Darby and Muhlenberg Townships, Pickaway County, Ohio, will be received until 1:30 P. M., Eastern Standard time.

Monday, February 27th 1928.

at the office of the County Auditor of Pickaway County, Circleville, Ohio, and then publicly opened. This improvement to consist of replacing about 6750 Lin. Ft. of the present open ditch with new 12 inch and 15 inch Vitruvial Salt Glazed tile, building one reinforced concrete headwall at headwall at the outlet, constructing two reinforced concrete culverts, making proper connections of the present laterals No. 1 and No. 2 with the main ditch and constructing 4 Standard Ohio State Highway side ditch inlets at road crossings and installing proper connections at various points along the ditch for outlets for present farm tile.

All work done and material furnished to be in accordance with the Plans and Specifications governing this improvement and between Station 29 plus 66.9 and Sta. 98 plus 12, except two of the side ditch inlets which will be installed over the present tile on Laterals No. 1 and No. 2.

Separate bids will be taken (1) for furnishing all tile, sewer pipe and Tee connections f. o. b. Ditch Bank and (2) for furnishing the balance of the material and constructing the entire improvement. Said bids shall be in writing on a form to be furnished by the County Surveyor and be accompanied with deposit of money or a certified check in full or a bill of exchange in an amount equal to 3% of the bid, as guaranty that if the bid is accepted, the bidder will sign the contract for the performance of the work and furnishing of the material bid upon, and will furnish such bond to the County for the performance of the contract signed, as may be required by law.

Plans, Profile and Specifications are on file at the office of the County Surveyor of Pickaway County, Circleville, Ohio.

The Board of County Commissioners reserve the right to reject any or all bids.

By Order of the Board of County Commissioners of said County.

H. G. GRINER, County Surveyor of Pickaway County, Circleville, Ohio. 59-2t.

APPLICATION FOR PAROLE

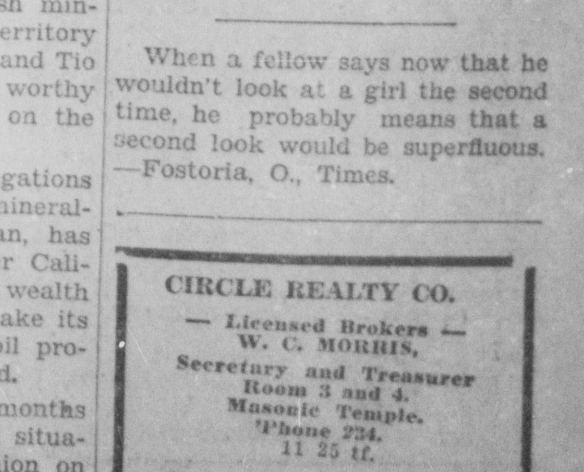

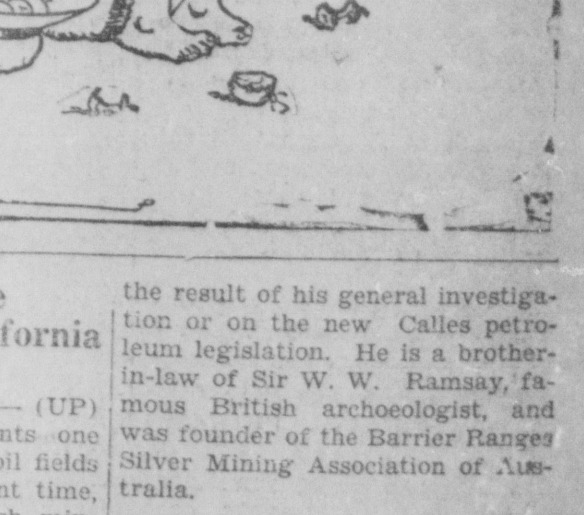

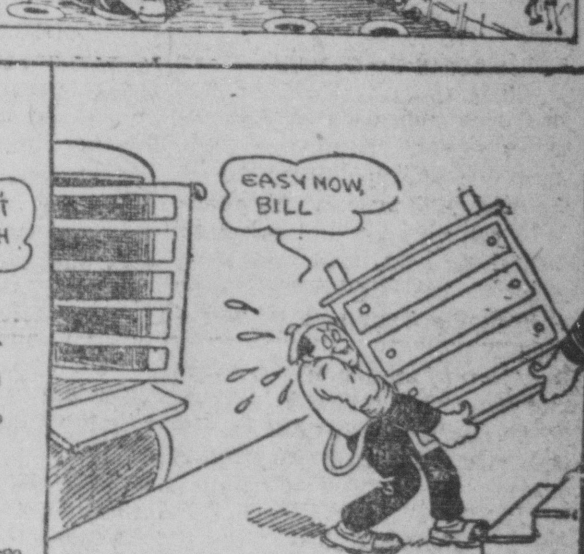

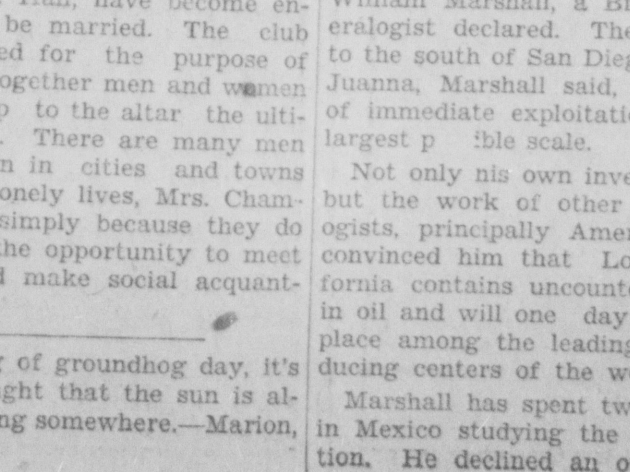

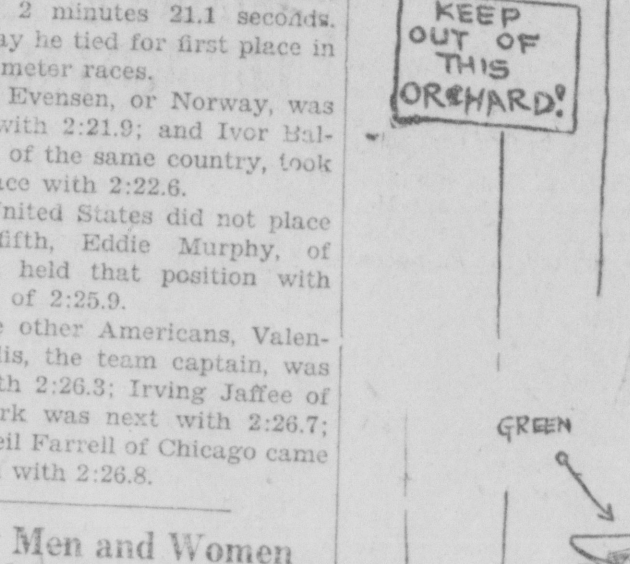

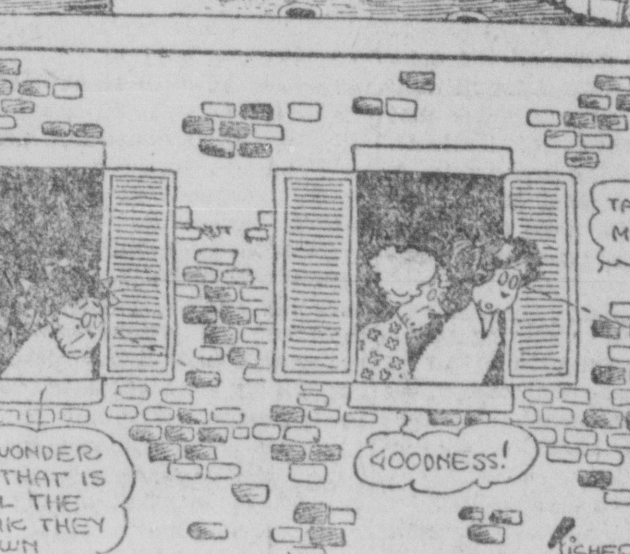

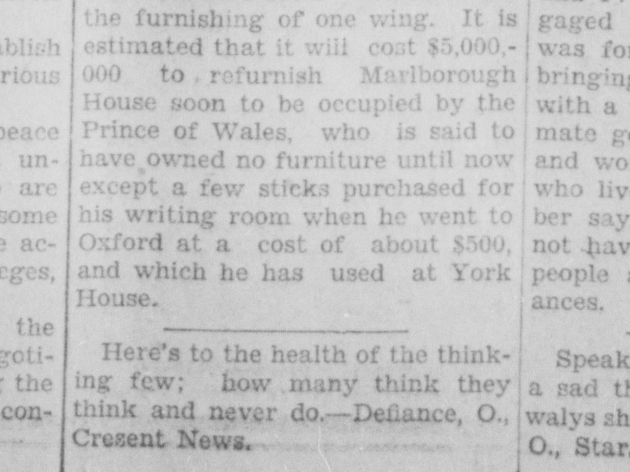

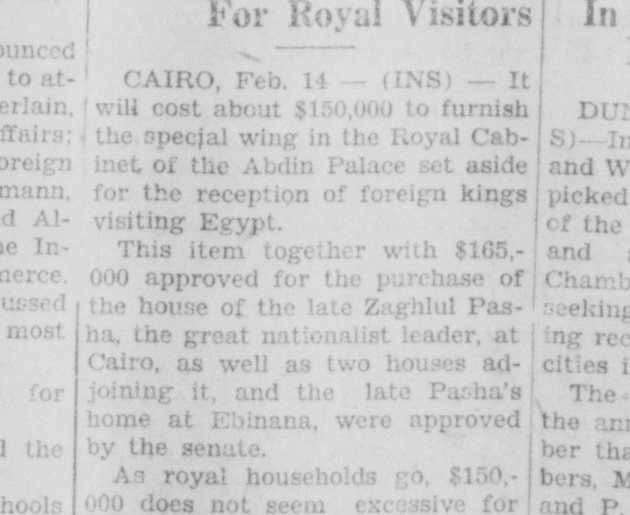

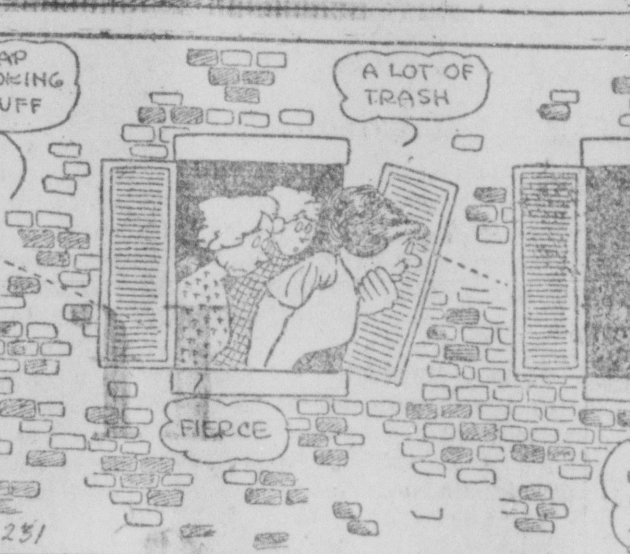

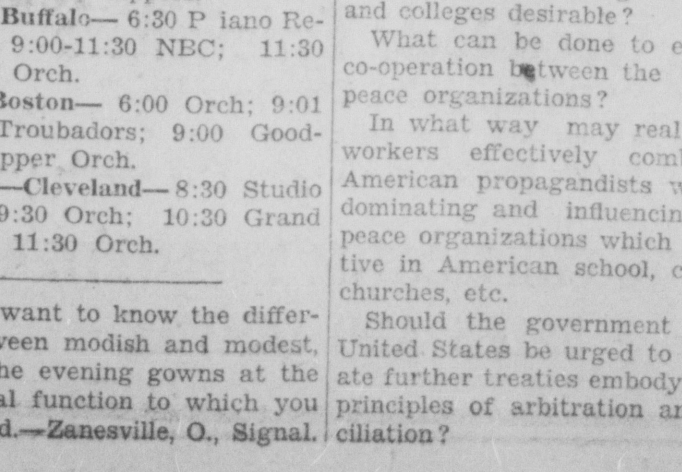

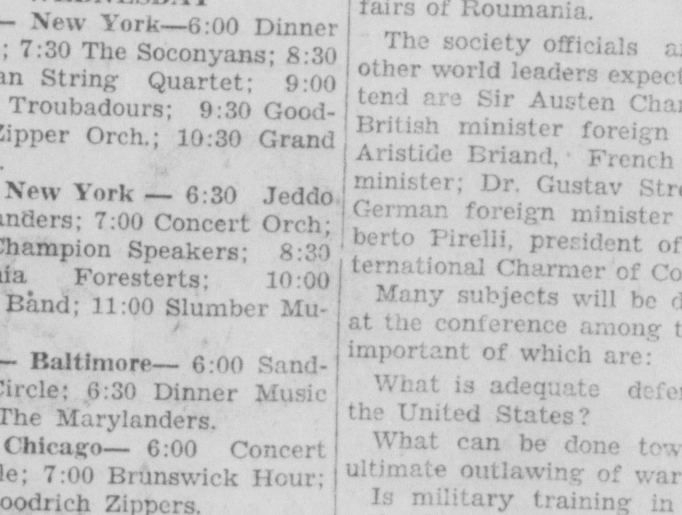

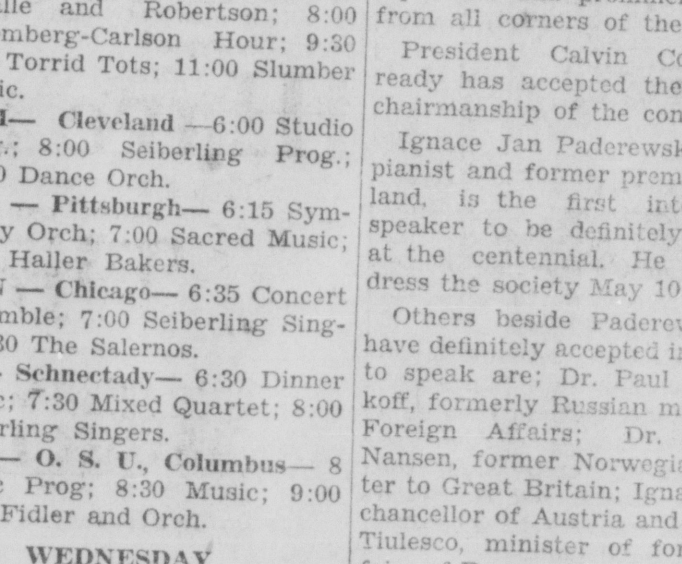

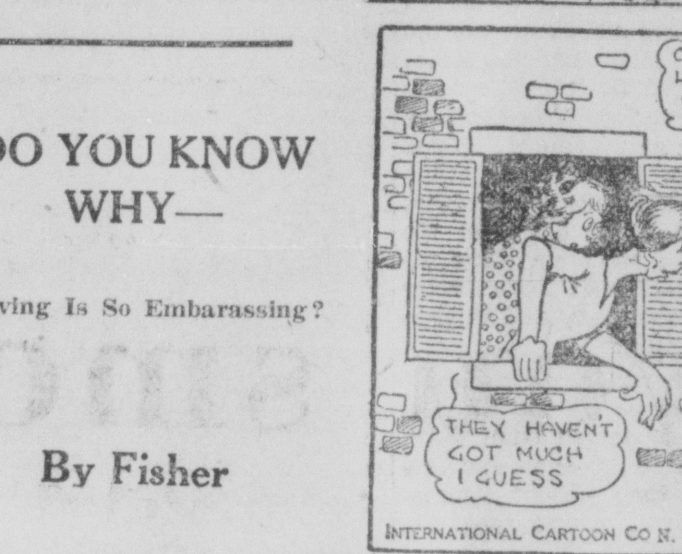

Notice is hereby given that Wayne Ebert, No. 54176, a prisoner now confined in the Ohio Penitentiary has been recommended to the OHIO BOARD OF CLEMENCY, by the Warden and Chaplain as legally eligible to a hearing for Parole, under Section 3711 General Code. Said Application will be for hearing on or after March 6, 1928.

D. J. BONZO, Parole and Record Clerk. 47-3t.

U. S. PEACE SOCIETY

SOON CELEBRATES ITS 100TH BIRTHDAY

CLEVELAND, O. Feb. 14 — (I NS)— The American Peace Society oldest organization of its kind in the world, will celebrate its 100th anniversary conference on international justice. The meeting, it is expected will bring diplomats and prominent visitors from all corners of the globe.

President Calvin Coolidge already has accepted the honorary chairmanship of the convention.

Ignace Jan Paderewski, famous pianist and former premier of Poland, is the first international speaker to be definitely assigned at the centennial. He will address the society May 10.

Others beside Paderewski who have definitely accepted invitations to speak are: Dr. Paul M. Millykoff, formerly Russian minister of Foreign Affairs; Dr. Fridtjof Nansen, former Norwegian minister to Great Britain; Ignatz Seipel, chancellor of Austria and Nicholas Tulesco, minister of foreign affairs of Roumania.

The society officials announced other world leaders expected to attend are Sir Austen Chamberlain, British minister foreign affairs; Aristide Briand, French foreign minister; Dr. Gustav Stresemann, German foreign minister and Alberto Pirelli, president of the International Chamber of Commerce.

Many subjects will be discussed at the conference among the most important of which are:

What can be done toward the ultimate outlawing of war?

Is military training in schools and colleges desirable?

What can be done to establish co-operation between the various peace organizations?

In what way may real peace workers effectively combat un-American propagandists who are dominating and influencing some peace organizations which are active in American school, colleges, churches, etc.

Should the government of the United States be urged to negotiate further treaties embodying the principles of arbitration and conciliation?

FRANK DAVIS,
Sheriff of Pickaway County, O.
I. F. Snyder, Attorney. 54-10t.

A timid man is one who feels that he ought to limp a little when he carries a cane. — Coshocton, O. Tribune.

HOG PRICES TO STAY LOW UNTIL AUTUMN

Industry Passing Through Low Price Period of Price Cycle, Say Experts.

Hog prices will remain low until next fall or winter, in the opinion of agricultural economists on the staff of the United States Department of Agriculture, in connection with a general forecast of agricultural prospects for 1928.

"The swine industry," says the forecast, "is passing through the low period of a hog price cycle as a result of expansion on production, stimulated by the high hog prices and the favorable relation between corn and hog prices prevailing in 1925 and 1926. With an increase of 6 to 8 per cent in pigs raised in 1927 over those raised in 1926, no reduction in seasonal hog supplies for slaughter is indicated until next fall and winter.

"While some improvement in domestic demand for hog products is anticipated, information regarding European hog production indicates that export demand during the greater part of 1928, will be even lower than in 1927. With supply and demand conditions as indicated, no material change in hog prices other than average seasonal fluctuations, seems likely until next fall and winter when market supplies probably will be affected by curtailed production resulting from the present unsatisfactory price situation."

FRANK DAVIS,
Sheriff of Pickaway County, O.
C. A. Weldon, Attorney. 59-10t.

NOTICE TO DITCH CONTRACTORS

Sealed proposals for furnishing all materials along the ditch bank and constructing the improvement of the Grubill Single County Ditch, located in the Township of Monroe, Pickaway County, Ohio, and located in the Township of Monroe, Pickaway County, Ohio, will be received until 1:30 P. M., Eastern Standard time.

MONDAY, FEBRUARY 27th 1928.

at the office of the County Auditor of Pickaway County, Circleville, Ohio, and then publicly opened. This improvement to consist of replacing about 6750 Lin. Ft. of the present open ditch with new 12 inch and 15 inch Vitruvian Salt Glazed Tile, building one reinforced concrete headwall at the outlet, constructing two reinforced concrete cutwaters, making proper connections of the present laterals No. 1 and No. 2 with the main ditch tile, constructing 4 Standard Ohio Highways side ditch inlets at road crossings and installing Tee connections at various points along the ditch for outlets for present farm tile.

All work done and material furnished to be in accordance with Plans and Specifications governing this improvement and between Section 24 plus 6.9 and Sta. 98 plus 12, except two of the side ditch inlets which will be installed over the present tile on laterals No. 1 and No. 2.

Separate bids will be taken (1) for furnishing all tile, sewer pipe and Tee connections to be installed on the ditch, and (2) for furnishing and constructing the entire improvement. Said bids shall be in writing on a form to be furnished by the County Surveyor and be accompanied by a check on some bank or a bill of exchange, in an amount equal to 2% of the bid, as guaranty that if the bid is accepted, the bidder will sign the contract for the performance of the work and furnish the material and labor, and will furnish such bond to the County for the performance of the contract signed, as may be required by law.

APPLICATION FOR PAROLE

Notice is hereby given that Wayne Ebert, No. 54176, a prisoner now confined in the Ohio Penitentiary has been recommended to the OHIO BOARD OF CLEMENCY, by the Warden and Chaplain as legally eligible to a hearing for Parole, under Section 2171 of the General Code. Said Application will be for hearing on or after March 6, 1928.

U. S. PEACE SOCIETY SOON CELEBRATES ITS 100TH BIRTHDAY

CLEVELAND, O., Feb. 14 — (INS)—The American Peace Society oldest organization of its kind in the world, will celebrate its 100th anniversary conference on international justice. The meeting, it is expected will bring diplomats and prominent visitors from all corners of the globe.

President Calvin Coolidge already has accepted the honorary chairmanship of the convention.

Ignace Jan Paderewski, famous pianist and former premier of Poland, is the first international speaker to be definitely assigned at the centennial. He will address the society May 10.

Others beside Paderewski who have definitely accepted invitations to speak are: Dr. Paul M. Millykoff, formerly Russian minister of Foreign Affairs; Dr. Fridtjof Nansen, former Norwegian minister to Great Britain; Ignatz Seipel, chancellor of Austria and Nicholas Titulesco, minister of foreign affairs of Roumania.

The society officials announced other world leaders expected to attend are Sir Austen Chamberlain, British minister foreign affairs; Aristide Briand, French foreign minister; Dr. Gustav Stresemann, German foreign minister and Alberto Pirelli, president of the International Chamber of Commerce.

Many subjects will be discussed at the conference among the most important of which are:

What is adequate defense for the United States?

What can be done toward the ultimate outlawing of war?

Is military training in schools and colleges desirable?

What can be done to establish co-operation between the various peace organizations?

In what way may real peace workers effectively combat un-American propagandists who are dominating and influencing some peace organizations which are active in American school, colleges, churches, etc.

Should the government of the United States be urged to negotiate further treaties embodying the principles of arbitration and conciliation?

Egypt Spends \$150,000 To Equip Abdin Palace For Royal Visitors

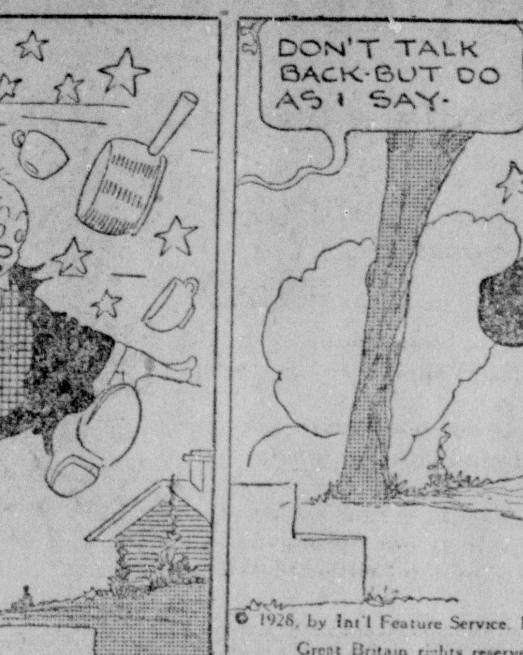

CAIRO, Feb. 14 — (INS) — It will cost about \$150,000 to furnish the special wing in the Royal Cabinet of the Abdin Palace set aside for the reception of foreign kings visiting Egypt.

This item together with \$105,000 approved for the purchase of the house of the late Zaghul Pasha, the great nationalist leader, at Cairo, as well as two houses adjoining it, and the late Pasha's home at Ebnana, were approved by the senate.

As royal households go, \$150,000 does not seem excessive for the furnishing of one wing. It is estimated that it will cost \$5,000,000 to refurbish Marlborough House soon to be occupied by the Prince of Wales, who is said to have owned no furniture until now except a few sticks purchased for his writing room when he went to Oxford at a cost of about \$500, and which he has used at York House.

Lonely Men and Women In Other Towns Follow New Iowa Club Plan

DUNLAP, Iowa, Feb. 14 — (INS)—Interest in the "Lonely Men and Women" club of this town has picked up with the first indication of the success of the organization, and according to Mrs. Ethel Chamber, its promoter, letters seeking details of the club are being received from other towns and cities in Iowa.

The first "success" reported is the announcement by Mrs. Chamber that two of the club's members, Mrs. Cora Gossnell, a widow and P. A. Hall, have become engaged to be married. The club was formed for the purpose of bringing together men and women with a trip to the altar the ultimate goal. There are many men and women in cities and towns who live lonely lives, Mrs. Chamber says, simply because they do not have the opportunity to meet people and make social acquaintances.

Speaking of groundhog day, it's a sad thought that the sun is always shining somewhere.—Marion, O., Star.

And the Worst is Yet to Come

Sees Big Oil Future In Lower California

MEXICO CITY, Feb. 14 — (UP)—Lower California presents one of the greatest potential oil fields in the world at the present time, William Marshall, a British mineralogist declared. The territory to the south of San Diego and Tijuana, Marshall said, is worthy of immediate exploitation on the largest possible scale.

Not only his own investigations but the work of other mineralogists, principally American, has convinced him that Lower California contains uncounted wealth in oil and will one day take its place among the leading oil producing centers of the world.

Marshall has spent two months in Mexico studying the oil situation. He declined an opinion on

Ex-Army Major Admits Killing His Wife While She Smiles at Him

HAMMER USED AFTER PRAYER IN N. Y. HOTEL

Prisoner Says Woman Agreed to Slaying—Loses Nerve to End Own Life.

By JAMES KILGALLEN

I. N. S. Staff Correspondent
NEW YORK, Feb. 14.—"I killed her. She knew I was going to do it. I intended to kill myself, too. She was fully awake. We joined in a short prayer. Then I struck her head with a hammer. I walked to a window. I was going to jump out—but I lost my nerve."

In these words, Cecil Clyde Campbell, 43, a former army major, confessed in Philadelphia, where he is under arrest today, that it was he who beat his wife, Mary Lily MacLean Campbell, to death in room 1108 of the Grand hotel, Broadway and 31st street, New York City, a week ago yesterday.

Smiles When Struck

Campbell, a tall, powerful man with a ready smile, declared that he and his wife stayed at the Grand hotel several days, all the while discussing his financial difficulties, and finally agreeing to "end our lives."

"She looked up into my eyes and smiled just before I struck her," he declared.

He made his amazing admissions eagerly. A few hours before he had taken part in a revival hymn service and had heard a sermon on "Those Who Live by the Sword Shall Perish by the Sword." He was captured in a hotel operated by the Volunteers of America. He was penniless and remorseful.

"Remorse," he said, "is man's greatest prerogative."

Preceded by Prayer

Campbell insisted he was the husband of the woman with whom he had registered at the Grand hotel as "Mr. and Mrs. T. H. James of Troy, N. Y." She was 40 years old and she was not his common law wife, he said. He had been divorced by his first wife, Mrs. Mrs. Cornelia Campbell of Portland, Maine.

He said on the day of the murder he and his wife went to their room on the eleventh floor of the Grand hotel. He had procured a

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist.

Ex-Army Major Admits Killing His Wife While She Smiles at Him

HAMMER USED AFTER PRAYER IN N. Y. HOTEL

Prisoner Says Woman Agreed to Slaying—Loses Nerve to End Own Life.

By JAMES KILGALLEN

I. N. S. Staff Correspondent
NEW YORK, Feb. 14—“I killed her. She knew I was going to do it. I intended to kill myself, too. She was fully awake. We joined in a short prayer. Then I struck her head with a hammer. I walked to a window. I was going to jump out—but I lost my nerve.”

In these words, Cecil Clyde Campbell, 43, a former army major, confessed in Philadelphia, where he is under arrest today, that it was he who beat his wife, Mary Lyle MacLean Campbell, to death in room 1108 of the Grand hotel, Broadway and 31st street, New York City, a week ago yesterday.

Smiles When Struck

Campbell, a tall, powerful man with a ready smile, declared that he and his wife stayed at the Grand hotel several days, all the while discussing his financial difficulties, and finally agreeing to “end our lives.”

“She looked up into my eyes and smiled just before I struck her,” he declared.

He made his amazing admissions eagerly. A few hours before he had taken part in a revival hymn service and had heard a sermon on “Those Who Live by the Sword Shall Perish by the Sword.” He was captured in a hotel operated by the Volunteers of America. He was penniless and remorseful.

“Remorse,” he said, “is man’s greatest prerogative.”

Preceded by Prayer

Campbell insisted he was the husband of the woman with whom he had registered at the Grand hotel as “Mr. and Mrs. T. H. James of Troy, N. Y.” She was 40 years old and she was not his common law wife, he said. He had been divorced by his first wife, Mrs. Mrs. Cornelia Campbell of Portland, Maine.

He said on the day of the murder he and his wife went to their room on the eleventh floor of the Grand hotel. He had procured a

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist.

TWO OF THE RICHEST CHILDREN IN THE WORLD

Here is an exclusive photograph of Peter Salm (left), son of Mrs. Millicent Rogers Ramos, and little Gloria Vanderbilt (right), daughter of Mrs. Reginald C. Vanderbilt. The youngsters, who are numbered among the richest kiddies in the universe, were pictured while at play in Central Park, New York City.

Petting Will Continue Until Novelty Wears Out, Says 16-Year-Old Flapper

COLUMBUS, O., Feb. 14—(UP)—Boredom may cause high school youth to stop petting and playing with hip pocket flasks, but agitation against youth’s so-called uprising will have little effect, in the opinion of East High School students here.

East High School, Columbus, recently attracted widespread attention when “The Rampant Age,” work of Robert S. Carr, an 18-year-old East High School youth, called attention to alleged activities of wild youth here.

Shortly after publication of the book a prominent young sophomore girl in East High was asked for comment as to real conditions there, as to the views of her sex toward liberties taken by the young women of tender years.

The history of petting to this particular young woman—she was only 16—was vague. “I don’t know when these conditions started, or how,” she said. “They’ve been going on as long as I remember, and I’ve been going out for years now.”

East High School students, she said, did not look upon petting as a prime necessity of life and she suggested that the custom was becoming so general that it might be killed off eventually because of the very fact that the novelty may wear off.

“We like it,” she said, referring both to petting and drinking, “and we’ll probably keep right on with it until it begins to bore us. I don’t know what we’ll do then.”

“After all, what is a person to do? You go out on a triple date and all the other girls neck. You hate to be a bum sport, and that’s that.”

The 16-year-old girl, who is known to newspaper people in Columbus, made statements about high school life here that would make some of the statements in “The Rampant Age,” seem antiquated.

“I don’t know why someone hasn’t written it before,” she said, “except that the high school kids are the only ones who really know what’s going on. The parents don’t know and the teachers don’t know.”

The parents wouldn’t know what to do if they did find out, so they don’t try very hard. They’d tell us that petting and drinking and so on all were wrong. But they couldn’t convince us.”

Most of East High School’s parties are thrown out of town and there is little trouble from policemen, this worldly wise young woman maintained.

“The cops don’t know half as many roads as the high school boys do,” she concluded.

CORN HIGH IN OHIO AND LOWER IN WEST

Crop Conditions Reflected In Prices East and West Of Mississippi.

Farmers who have corn to sell, are getting higher prices than they got a year ago; says C. R. Arnold of the Department of Rural Economics of the Ohio State University. “In comparing the farm prices of corn on last Dec. 1, with a year ago Dec. 1,” says Arnold, “we find that in Ohio it was 17 cents higher, this year; in Indiana it was 28 cents higher; Illinois, 15 cents higher; Michigan, 12 cents higher; Wisconsin, 9 cents higher. In South Dakota it was 1 cent lower than in Dec. 1, 1922; in North Dakota it was 6 cents lower; in Nebraska, 6 cents lower, and in Kansas, 9 cents lower.”

The usual trend of corn prices is upward from January or February to August. The advance of prices during this period, however, is affected somewhat by the quality of the crop, the number of live-stock on farms, the location of the crop and the condition of the new crop.

“Farm supplies are about the same as last year, and feeding requirements should not be much greater. However, there is some indication that the feeding quality of the corn in some sections is considerably below standard, which may increase the demand for good corn.”

DAIRY COW HAS 6 EATING REASONS

Because She Is Hungry Only One—O. S. U. Specialists Issue Feed Bulletin.

The dairy cow must eat for at least five reasons over and above the fact that she gets hungry. She must eat first in order to maintain her body, keeping up her normal temperature and providing for the repair of her tissues. A large proportion of her total feed goes into milk production. Reproduction calls for another important supply of nutrition. When the cow is dry, she should be fattened, because, just after she has freshened, she actually produces more milk than she eats feed to produce, and must have a reserve on her body. Finally, she must eat to grow, because the average large cow is a better producer than the average small cow.

Specific recommendations for the meeting of all these demands for the dairy cow are included in one of the latest bulletins issued by the Extension Service of the Ohio State University, Bulletin No. 72, entitled “Feeding Dairy Cattle.” The authors are C. L. Blackman, specialist in animal husbandry, and Ivan McKelip, specialist in dairying.

Beginning with a thorough discussion of the use and functions of feed, the bulletin goes on to suggestions of specific rations for dairy cattle under various conditions.

PLAIN WHITE PAPER BEST TABLE COVER

Saves Appalling Laundry Task When Community Meals Are Served on Them.

Tablecloths must be laundered and newspapers don’t look any too well on the table, when the ladies of the Grange, the church, or any other community organization, serve a community meal. Home economics specialists of the Ohio State University Extension Service suggest that the ladies split the difference, and use plain white paper on the tables. It looks better than the newspapers, and doesn’t have to be washed.

Another suggestion to the committee in charge of the meal is that the foods served shall differ from each other in color and texture, so that they present a pleasing appearance, which means a good deal more in the attractiveness of a meal, than is usually realized.

“Avoid using foods of similar value, such as white and sweet potatoes,” is another suggestion. “Limit the variety of foods. Great variety is not necessary to meet food requirements, and entails too much work for the foods committee. If children are in the group, plan foods suitable for them, and add other foods for grown-ups. Give adults as well as children the opportunity to have milk or cocoa. Offer these before coffee, rather than after.”

Hawaiian Sugar Crop Set At \$16,000 Tons

HONOLULU, T. H., Feb. 14—(UP)—Preliminary estimates for the Hawaiian raw sugar crop for 1923 has been placed at \$16,000 tons by the Hawaiian Sugar Planters’ association. Experts believe that in all probability the estimate is too low and that it will later be increased to between \$40,000 and \$50,000 tons.

Arthur H. Rice, retiring president of the Honolulu stock and bond exchange, believes that as a result of increasing acreage and more intensive cultivation the time when the annual Hawaiian sugar crop amounts to 1,000,000 tons is not far distant.

WINNING IRISH-AMERICAN GIRLIE

After searching the United States for months for the ideal girl of Emerald Isle-American beauty, Pierre DuPre, noted French portrait painter has selected Phyllis Hermann, 22, of Chicago, as just the type. She’ll go to Paris to pose for famous artists.

Behind The Mask On Broadway

NEW YORK, Feb. 14—(UP)—Those who follow the drama as an institution worthy of the highest consideration by Americans find much satisfaction in the doings round, about and on the New York stage during the past few weeks. With George Arliss, Walter Hampden, Eva LaGalliene and Max Rinehardt contributing to the mid-season revival of the best in plays the following other events worth notice have occurred only lately:

After being hailed by Londoners as successes in the musical comedy field Fred and Adele Astaire have come over here, stamped as London successes, and forced the New York public to approve of London’s verdict. The Astaires, Americans who found this fame abroad are playing in “Funny Face,” which leads the list of successful musical shows right now.

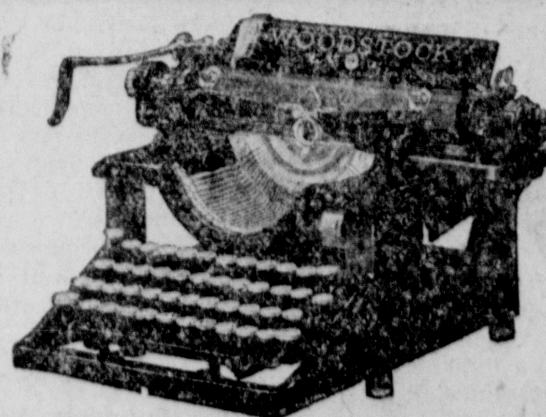

American actors and actresses in an imposing program at the Metropolitan Grand Opera house, united to help raise funds for the new Shakespeare theater at Stratford-on-Avon. Among those appearing were such outstanding figures of the American stage as George Arliss, Walter Hampden, Margaret Anglin, Edith Wynne Matthison, Jane Cowl, Laura Hope Crews and Elsie Janis.

Finally, in what may be termed drama developments on the American stage in early 1923, came production of “Strange Interlude,” by Eugene O’Neill, who will be remembered as having begun his appeal to the stage public with the rather doubtfully good “Desire Under the Elms.”

“Strange Interlude” causes those

Feen-a-mint The Laxative You Chew Like Gum

No Taste But the Mint

Annoying Night Coughs Stopped Almost Instantly.

Very frequently adults and children, especially children, have spells of night coughing due to bronchial irritations or while suffering from colds. These coughing spells, if not quickly checked, are very injurious to the health. A famous physician’s prescription called Thoxine, much better than patent medicines and cough syrups, acts on a different principle, relieves the irritation and stops the cough within 15 minutes or money back. Contains no chloroform, dope or other harmful drugs. Pleasant tasting and safe. 35c, 60c and \$1.00. Ask for Thoxine. Sold by Hamilton & Ryan and all good drug stores. (Adv.)

Artistic Job Printing

It isn’t just how cheap or how soon you can get that job printing of yours done, but how good, how artistic and how much it is going to mean to you in the way of increased business.

The Circleville Herald job printing plant is making many improvements, newer machinery, more modern type, competent workmen, all of which spells service and quality printing.

Give us a ring at Telephone 110 and let us furnish you an estimate on the cost of your printing. We won’t get peeved if you don’t give us the job, if you think our figure is too high, but we will be pleased to think we have been of some service to you in making your business a success in Circleville or Pickaway county.
